MicroMotion
MasterFORTH
It's here — the next generation of MicroMotion Forth.

- Meets all provisions, extensions and experimental proposals of the FORTH-83 International Standard.
- Uses the host operating system file structure (APPLE DOS 3.3 & CP/M 2.x).
- Built-in micro-assembler with numeric local labels.
- A full screen editor is provided which includes 16 x 64 format, can push & pop more than one line, user definable controls, upper/lower case keyboard entry, A COPY utility moves screens within & between lines, line stack, redefineable control keys, and search & replace commands.
- Includes all file primitives described in Kernigan and Plauger’s Software Tools.
- The input and output streams are fully redirectable.
- The editor, assembler and screen copy utilities are provided as relocatable object modules. They are brought into the dictionary on demand and may be released with a single command.
- Many key nucleus commands are vectored. Error handling, number parsing, keyboard translation and so on can be redefined as needed by user programs. They are automatically returned to their previous definitions when the program is forgotten.
- The string-handling package is the finest and most complete available.
- A listing of the nucleus is provided as part of the documentation.
- The language implementation exactly matches the one described in FORTH TOOLS by Anderson & Tracy. This 200 page tutorial and reference manual is included with MasterFORTH.
- Floating Point & HIRES options available.
- Available for APPLE II/II+/IIIe & CP/M 2.x users.
- MasterFORTH — $100.00. FP & HIRES — $40.00 each.

Publications
- FORTH TOOLS — $20.00
- 83 International Standard — $15.00
- FORTH-83 Source Listing 6502, 8080, 8086 — $20.00 each.
