IEEE Transactions on Software Engineering: Papers are solicited for three special issues. Archival research papers on software design methods are solicited for the first issue. Submit a two-page abstract by February 1, 1985, and six copies of the full manuscript with an IEEE copyright form by April 1, 1985, to Pamela Zave, AT&T Bell Laboratories, Room 3D-426, Murray Hill, New Jersey 07974; (201) 982-3080. The second issue will cover software reliability and will be published in fall 1985. Submit six copies of a complete paper by February 15, 1985, to Amrit L. Goel, ECE Dept., Syracuse University, Syracuse, NY 13210; (315) 423-4350 or -4380, or to Farokh B. Bastani, Dept. of Computer Science, University of Houston, Houston, TX 77004; (713) 749-4532. The third issue, which also will appear in fall 1985, will be devoted to statistical and scientific database management systems. Submit six copies of a full-length paper by February 15, 1985, to Harry K. T. Wong, Computer Science Research Dept., 501-3328, University of California, Berkeley, CA 94720. For submission requirements, see page 123 of the January 1984 issue of IEEE Transactions on Software Engineering.

14th Annual International Conference on Parallel Processing (ACM): August 20-23, 1985, St. Charles, Illinois. Regular-length and short papers are solicited. Regular-length papers will be judged on the basis of a 100-word abstract and the full text; short papers will be judged on the basis of a 100-word abstract and a 1000-word summary. For consideration in either category, submit four copies of each required item by February 1, 1985, to Doug DeGroot, M/S 21-133, T. J. Watson Research Center, PO Box 218, IBM Corp., Yorktown Heights, NY 10598; (914) 945-3497.

CSM 85, Conference on Software Maintenance (ACM et al.): November 11-13, 1985, Silver Spring, Maryland. Papers, proposals for panel discussions, and suggestions for other agenda items are sought. Submit five copies of a paper 1000 to 5000 words in length that includes an abstract of up to 250 words by February 4, 1985, to Roger Martin, National Bureau of Standards, Bldg. 225, Room B266, Gaithersburg, MD 20899; (301) 921-3545. Send five copies of a proposal for a panel discussion (200 words maximum including a list of four to five potential panelists) to Martin, and proposals for activities other than presentations of papers (caucuses, workshops, tool demonstrations, and vendor exhibits, for example) to Wilma Osborne, National Bureau of Standards, Bldg. 225, Room B266, Gaithersburg, MD 20899; (301) 921-3545.

ACM 85, The Range of Computing: Mid-80's Perspective: October 14-16, 1985, Denver, Colorado. Papers and proposals for panel sessions and tutorial workshops are sought. Submit six copies by February 15, 1985, to Judith Schlesinger, PO Box 24102, Denver, CO 80224; (303) 758-2951.

IFIP Working Group 8.1 Working Conference on Environments to Support Information System Design Methodology: September 4-6, 1985, Breton Woods, New Hampshire. Papers should not exceed 6000 words. Four copies should be submitted by February 15, 1985, to Peter C. Lockemann, Institut für Informatik, Universität Karlsruhe, Zirkel 2, 7500 Karlsruhe 1, West Germany; phone 49 + (0721) 608-3968.

VLD 85, 11th International Conference on Very Large Databases: August 21-23, 1985, Stockholm, Sweden. Submit five copies of papers (5000 words maximum) by February 15, 1985, to Alain Pirotte, Philips Research Laboratory, 2 Avenue van Becelaere, 1170 Brussels, Belgium, or Yannis Vassiliou, New York University, Graduate School of Business and Administration, 100 Trinity Pl., New York, NY 10006.

Data Analysis and Informatics Symposium (INRIA): October 7-9, 1985, Versailles, France. Submit four copies of a summary (500 words maximum) and one complete copy of a full-length paper (6000 words maximum), proposals for demonstrations of recent software innovations, and papers suitable for presentation at poster sessions by March 15, 1985, to Service des Relations Exterieures, Bureau des Colloques, Domaine de Voluceau, BP 105—78153 Le Chesnay CEDEX, France; phone (3) 954-90-20; telex INRIA 697 033 F.

IEEE Journal of Robotics and Automation: The IEEE Robotics and Automation Council has announced that papers are being sought for this journal, which is tentatively scheduled to begin publication in early 1985. IEEE members interested in submitting manuscripts should contact George Bekey, USC Robotics Institute, University of Southern California, Los Angeles, CA 90089; (213) 743-2995.

Journal of Automated Reasoning: This journal will begin quarterly publication in spring 1985. Research papers are sought in the areas of automated theorem proving, logic programming, expert systems, program synthesis and validation, artificial intelligence, and computational logic, in either pure or applied aspects. Contact Lawrence Wos, Mathematics and Computer Science Division, Argonne National Laboratory, 9700 So. Cass Ave., Argonne, IL 60439; (312) 977-7224.

1985 Association for Educational Data Systems/Educational Computing Organization of Ontario Conference: Computing Knows No Borders: April 21-27, 1985, Toronto, Ontario, Canada. Persons interested in participation in this conference by making presentations with or without papers, or by serving as members of panels, are asked to contact AEDS/ECOO 85, 1201 16th St., NW, Washington, DC 20036, or AEDS/ECOO 85, c/o OISE, 252 Bloor St. W., Toronto, Ontario MSS 1V6, Canada.
