Senior Software Professionals:

TO MAKE YOUR MARK... MAKE YOUR MOVE

to GTE Government Systems

Senior Software Professionals with U.S. citizenship have the opportunity to work on a major new Ada Project... beginning right now at GTE Government Systems. This is an exceptional opportunity for individuals interested in the challenges of Ada... in the latest DEC equipment... and in playing an important role on a project from inception through completion.

Join our Strategic Research and Engineering Organization in these state-of-the-art challenges involving:

- **ADA DESIGN LANGUAGE/ADA IMPLEMENTATION**
- **DEC’S VAX 8600 AND MICROVAX II COMPUTERS**
- **TEN VAX 8600’s AND OVER 100 MICROVAX II-BASED VAXSTATIONS USED IN OUR DEVELOPMENT FACILITY**

on applications that include:

- ADVANCED MMI: MULTIPLE SCREEN, COLOR GRAPHICS, AND ALPHANUMERICs
- RELATIONAL DBMS
- REAL-TIME EQUIPMENT CONTROL
- COMPUTER NETWORKING: ETHERNET/VAX-CLUSTERING
- LARGE SOFTWARE DEVELOPMENT: OVER 300,000 SOURCE LINES OF CODE

We have opportunities for:

**SOFTWARE TECHNICAL MANAGERS**

Take management responsibility for a small- to medium-size subsystem of a very large software system. Involves participation in software requirements generation and acting as an advisor on cost/performance/schedule tradeoffs. Experience and/or formal training in Ada highly desirable.

**SOFTWARE PROJECT/LINE MANAGERS**

Manage software development for a small- to medium-size subsystem of a very large software system. Involves participation in software requirements generation, planning and status reporting, writing management documents and recommending cost/performance/schedule tradeoffs. Management experience on small- to medium-size software projects required. Experience and/or formal training in Ada highly desirable.

**SENIOR DESIGNERS/GROUP LEADERS**

Primary duties include leading/supporting software development activities including requirements generation, code/unit testing, design, and integration. Experience on VAX under VAX/VMS and with FORTRAN or a high order language required.

Our Tactical Research and Engineering Organization also has openings for:

- **SOFTWARE PROJECTS MANAGER**
- **LEAD SOFTWARE ENGINEERS**
  - HIGH SPEED RECEIVER PROCESSOR
  - DIGITAL VOICE STORAGE SYSTEM
  - VOICE PROCESSING SIMULATION
- **SOFTWARE PROPOSAL MANAGER**
- **OTHER EXPERIENCED SOFTWARE ENGINEERS** to support a wide range of tasks from design through code, test, and integration.

All positions require at least 7 years experience in defense-related projects; experience in real-time signal processing would be ideal. Positions also require a BS or equivalent in CS, EE, or math; graduate degree preferred.

To make your mark, make your move NOW... to GTE Government Systems. We provide competitive compensation and complete benefits, including educational assistance, a stock purchase plan, a tax-deferred savings plan, and much more. Please send your resume, including salary requirements, in complete confidence to:
