CALL FOR PAPERS

Second IEEE Computer Society Workshop on Software Technology Transfer

June 10–12, 1987
Santa Fe, New Mexico

This workshop will provide a forum for the discussion and exchange of methods and models of technology transfer. Topics to be addressed include:

- models of the transfer process,
- means of cooperation between research and development,
- measurement of the transfer process,
- the role of education and training, and
- psychological and social issues.

This workshop will be limited to 30–40 participants. Attendance will be determined on the basis of position papers. Interested parties should submit five (5) copies of a 3- to 5-page position paper no later than February 15, 1987 to:

Charles Richter
Software Technology Program
MCC
P.O. Box 200195
Austin, Texas 78720
