

PRODUCT HIGHLIGHTS

For more information, circle the appropriate RS No. on the Reader Service Card at the back of the magazine.

Product: Computer or OS	Manufacturer, Address, and Phone	Product Description	RS No
Accounting/Business			
Personal W: MS-DOS PCs	Comshare 3001 S. State St. Ann Arbor, MI 48106 (313) 994-4800	Spreadsheet for modeling financial reports. A subset of the main-frame W/Modeling system, it has the same screen design, syntax, and modular approach. Spreadsheets created on PC can be transferred to mainframe. Replaces Micro/W; \$595.	50
Books/Literature			
How to Use WordPerfect: MS-DOS PCs	FlipTrack Learning Systems 999 Main, Ste. 200 Glen Ellyn, IL 60137 (312) 790-1117	A self-study audiocassette course teaches both beginning and advanced use of WordPerfect. Includes a quick reference guide; \$89.	51
Networking curriculum Video course	Honeywell Education Services 65 Walnut St. Wellesley Hills, MA 02181 (800) 343-1206	Six video courses, including "Guide for Network Designers," "Data Communications Network Components," and "Local Area Network Selection." Documentation is included; \$295 to \$995.	52
How-to guides	Ashton-Tate 20101 Hamilton Ave. Torrance, CA 90502-1319 (800) 437-4329	Six new products: <i>dBase III Plus Trail Guide</i> , <i>dBase Tools for C</i> , <i>Introduction to dBase III Plus Programming</i> , <i>dBase III Plus Programming Tips and Techniques</i> , <i>Introduction to Framework II Programming</i> , and <i>Framework: A Developer's Handbook</i> ; \$20-\$90.	53
Communications			
Token Ring Monitor/Analyzer: MS-DOS PCs	Proteon 4 Tech Circle Natick, MA 06536 (617) 655-3340	Two management systems for use with the ProNet-10 token ring LAN. The Monitor tracks network demand and troubleshoots on-line problems. The Analyzer does Monitor functions and tracks circulation time and frequency changes. Monitor is \$1200, Analyzer is \$4900.	54
LU1 and LU3: Tower microcomputers	NCR Dayton, OH 45479 (513) 445-4169	LU1 permits a Tower micro to receive SNA character string files from an IBM host; LU3 permits reception of data string compatible files. Both use standard Tower printers, and emulate an IBM 3287 printer connected to an IBM 3274 or 3276 controller; \$150 each.	55
DI3270: Novell LANs	Data Interface Systems 827 Harris Ave. Austin, TX 78765-4189 (512) 346-5641	Allows a PC to serve as a gateway to an IBM host, emulating a 3274 controller. Supports both binary synchronous and SNA/SDLC communication protocols. Available for LANs running Novell Advanced NetWare version 2.0 or higher.	56
Move-It: MS-DOS, CP/M-86	Wolf Software Systems 22048 Sherman Way, Ste. 106 Canoga Park, CA 91303 (818) 703-8112	A major update, version 4 includes support for automatic file compression, Xmodem protocol, scripting files, and keyboard macros. \$150.	57
Database			
Archive Management System: MS-DOS PCs	Franklin Telecom 31320 Via Colinas, Ste. 113 Westlake Village, CA 91362 (818) 706-1186	Software to manage file storage and retrieval in a 200M-byte Write-Once-Read-Mostly laser disk subsystem. AMS archives and retrieves files globally and with exceptions. Once files are written, they can be tracked by version, time, and date; \$5995.	58
Teamwork/Access: Apollo, DEC, Hewlett-Packard, IBM, Sun	Cadre Technologies 222 Richmond St. Providence, RI 02903 (401) 351-5950	A database access tool that integrates Teamwork/SA, Teamwork/RT, and Teamwork/SD front-end analysis and design tools with back-end documentation, project management, and software development packages. \$2500 per network.	59

Product: Computer or OS	Manufacturer, Address, and Phone	Product Description	RS No.
DYL-DB2 1.5: MVS/TSO	Sterling Software 17418 Chatsworth St. Granada Hills, CA 91344-0075 (818) 366-1781	Software that joins DB2 database files and mixes them with data from other sources, including standard IMS, QSAM, VSAM, ISAM, BDAM, Total, Adabase, and Datacom/DB database files. Designed to work with DYL-280 and DYL-280 II; \$6380.	60
Program Manager: MS-DOS PCs	Lassen Software PO Box 1190 Chico, CA 95927 (916) 891-6957	Designed to organize programs on a hard disk for easy access. Users can design menus and assign function keys to their programs stored on a hard disk, so a program can be selected and executed with one keystroke; \$39.95.	61
PicturePower: MS-DOS	PictureWare 111 N. Presidential Blvd. Bala Cynwyd, PA 19004 (215) 667-0880	Incorporates photographic quality pictures into databases. Pictures are stored and retrieved by user-selected attributes. Any number of pictures of any size can be displayed on the screen. Compatible with dBase III Plus; black-and-white, \$795; color, \$1000.	62

Electronic Publishing

The Newsroom Pro: MS-DOS PCs	Springboard Software 7807 CreekrIDGE Cir. Minneapolis, MN 55435 (612) 944-3915	Features a word processor with automatic column flowing, more than 2000 pieces of clip art, five vertical line spacing settings, ability to import ASCII files, and modem support. Requires CGA board; \$129.95.	63
---------------------------------	---	--	----

Languages

Toolkit: MS-DOS PCs	Ashton-Tate 20101 Hamilton Ave. Torrance, CA 90502-1319 (213) 329-8000	A collection of routines and programs for developers who use Framework II, versions 1.0 and 1.1. Supports functions to create and customize printer drivers and dBase files, and has new import and export file utilities. Supports color and monochrome; \$149.	64
Trees-pls: MS-DOS PCs	Avyx 304 Inverness Way S. Englewood, CO 80112-5819 (303) 790-0514	Resource management software can manipulate tree structures found in artificial intelligence applications. Designed for scheduling, project control, and information management. Site licenses available.	65
Forge: MicroVAX II under Ultrix, Sun	Pacific-Sierra 312 Main St., Ste. 203 Placerville, CA 95667 (916) 621-1600	Interactive facility for Fortran optimization for supercomputers. Timing analysis at Do-loop level, interactive code restructuring, transportable Fortran for system combinations, audit trail creation, and on-line tutorial; free demo software.	66
Accell IDS 1.3: Unix	Unify 4000 Kruse Way Pl. Lake Oswego, OR 97034-2548 (503) 635-6265	Product update has 10 new language statements, 10 new software ports, enhanced menus with more user options, more flexible screen design, enhanced data dictionary, and memory optimization. Also includes Turbo/SQL; \$4500 to \$95,000.	67
Zeta-C: TI Explorer Lisp	Zeta-Soft, Ltd. 94 Sciarappa #2 Cambridge, MA 02141 (617) 868-4634	C compiler and development environment ported to the TI Explorer Lisp machine. It is a complete implementation of C, compatible with Unix System V and Unix 4.2 BSD, and includes the extensions in the ANSI X3.J11 draft standard; \$5800.	68
Accolade/PC: MS-DOS PCs	Computer Corp. of America 4 Cambridge Center Cambridge, MA 02142 (617) 492-8860	An option of Version 5.0 of this Cobol application generator, the PC version has all the capabilities of the mainframe version. It also supports applications that process cooperatively on PCs and mainframes. It interfaces to Model 204 and IBM SQL; \$7500 to \$50,000.	69

Utilities/Miscellaneous

Fail-Safe: MS-DOS PCs	CSSL 909 Electric Ave. Seal Beach, CA 90740 (213) 493-2471	Software includes routines that automatically record data and programs, intercept write commands to duplicate data on a second disk, flag bad sectors, and support access by password; \$395.	70
