Simon Gibbs is a researcher in the software technology program at MCC. His current interests are in multimedia systems and related applications. His past experience includes three years at various sites in Europe where he participated in the ESPRIT Multimedia Filing System project. Gibbs received a PhD in computer science from the University of Toronto in 1984.

Yiannis Yeorgaroudakis is a member of the Institute of Computer Science at the Research Center of Crete. His research interests are office automation systems and factory automation. His has developed a word processor and has been a consultant for small- to medium-sized businesses. Yeorgaroudakis received a BS in mathematics from the University of Athens and an MS in computer science from the University of Waterloo.

Dennis Tsichritzis is a professor of computer science and director of the Centre Universitaire d'Informatique at the University of Geneva. His research interests include office information systems, databases, and object-oriented environments. His previous position was with the department of computer science at the University of Toronto, from 1968 to 1985. He was director of the Institute of Computer Science at the Research Center of Crete from 1983 to 1986.

Tsichritzis received a PhD in electrical engineering from Princeton in 1968.

Akis Fitas is responsible for the research department of Mnemonica Computer Services, Athens. He is a member of the ESPRIT Multimedia Filing System project and also participates in the Muse project at the Research Center of Crete. His research interests are office automation and user interface management systems.

Fitas received a BS with honors in electrical engineering from the University of Essex, Colchester, England, in 1983.

Dimitri Konstantas is a member of the Institute of Computer Science at the Research Center of Crete. His research interests are computer communications and office information systems. He was a research assistant at the National Defense Research Center of Greece for two years.

Konstantas received a BS in electrical engineering from the National Technical University of Athens and an MS in computer science from the University of Toronto.

**If STRUCTURED ANALYSIS is your passion, you'll love DeeDee™!**

**THE DATA DICTIONARY management tool you've wished for!**

- Syntax checking for data consistency
- Makes global changes
- Alphabetizes automatically
- Menu driven and configurable
- Tailored automated documentation
- Automated creation of sub-definitions
- VAX EDT-like editing of data structures

Keeps LARGE PROJECTS under budget!

**Powerful, Productive, Fast!**

**DeeDee™ $2995**

**Ada and Pascal type declarations created with Mkt™ option... $995**
