

“The State of the Practice of Software Engineering” (Guest Editor’s Introduction), Robert L. Glass, no. 6, Nov./Dec., pp. 20–21.

Features

“Accelerating COTS Middleware Acquisition: The i-Mate Process,” Anna Liu and Ian Gorton, no. 2, Mar./Apr., pp. 72–79.

“Signpost: Matching Program Behavior against Known Faults,” Mike Andrews, no. 6, Nov./Dec., pp. 84–89.

Departments

Bookshelf

Agile Software Development, reviewed by Anthony Akins, no. 1, Jan./Feb., pp. 97–98.

Applied Java Patterns, reviewed by Carl Viergutz, no. 2, Mar./Apr., pp. 84–85.

Applied Software Architecture, reviewed by Deependra Moitra, no. 1, Jan./Feb., pp. 98–99.

Building Systems from Commercial Components, reviewed by Shantha Mohan, no. 4, July/Aug., pp. 84–85.

Debugging, reviewed by Melissa Strange, no. 6, Nov./Dec., p. 111.

Making the Software Business Case: Improvement by the Numbers, reviewed by David H. Shumaker, no. 3, May/June, pp. 110–111.

A New Kind of Science, reviewed by Terry Bollinger, no. 2, Mar./Apr., pp. 80–82.

Prey: A Novel, reviewed by Terry Bollinger, no. 2, Mar./Apr., pp. 80–82.

Design

“When to Make a Type,” Martin Fowler, no. 1, Jan./Feb., pp. 12–13.

From the Editor

“Is Software Engineering as We Know It over the Hill?” Warren Harrison, no. 3, May/June, pp. 5–7.

“The Software Developer as Movie Icon,”
—, “Questioning the Software Engineering Unquestionables,” no. 3, May/June, pp. 120, 119.
—, “The State of the Practice of Software Engineering” (Guest Editor’s Introduction), no. 6, Nov./Dec., pp. 20–21.

Gorton, Ian, see Liu, Anna.

Gupta, Rajiv, see Karp, Alan H.
