Message from the BCD 2016 Conference Chair

On behalf of the Conference Committee, it is my great pleasure to welcome you to the 1st International Conference on Big Data, Cloud Computing, Data Science & Engineering (BCD 2016). BCD 2016 facilitates researchers from around the world to exchange cutting-edge research results in various areas of big data.

BCD 2016 is sponsored by the International Association for Computer and Information Science (ACIS) and is co-located with two other conferences, the International Conference on Applied Computing and Information Technology and the International Conference on Computational Science/Intelligence and Applied Informatics. Together, these events will cover broad areas in computer science and accommodate discussions on new directions for future research. BCD 2016 will not only identify research in big data technologies but will also nurture strong relationships with other research disciplines.

I hope you find the conference and your stay in Las Vegas both valuable and enjoyable.

Juyeon Jo
University of Nevada, Las Vegas
BCD 2016 Conference Chair
