

Preface

Dear Colleagues,

It gives me a great pleasure to welcome you to the International Conference on Advanced Computer Science Applications and Technologies ACSAT2012, organized by Design for Scientific Renaissance (DSR).

The organizing committee of the conference received around 200 Research papers from all over the world (38 countries); only 125 of them were accepted. The submitted papers covered a wide range of important topics in Computer Science Applications and Technologies.

The refereed articles covered mostly all tracks of the conference. All submitted papers were refereed by anonymous referees in the field of specialization. In many cases, the research papers were improved significantly based on the recommendation of the referees, to whom we would like to thank for all their efforts.

It is my great pleasure and honor to serve this conference as General Chairman. I would like to thank all authors that had the confidence in the quality of our conference and the high standards it pertains, and submitted their valuable work to be presented and published.

I would like to express my gratitude to every member of the International Steering Committee for many suggestions, and all members of the Editorial Board for their scientific and technical help.

I especially thank the Organizing Committee, Technical Committee, cooperating societies, and institutes for their devotion to organizing this conference.

Thank you

Dr. Imad Fakhri Al Shaikhli
Conference General Chair
