IEEE Advances in Digital Libraries 2000 (ADL 2000)

Foreword ................................................................. viii
Committees ................................................................. ix

Session 1: Invited Address

Search versus Find: A Future History of Information Retrieval
  Speaker: Craig Silverstein, Director of Technology, Google Inc.

Session 2: Digital Library Systems

Electronic Books in Digital Libraries ................................................................. 5
  G. Ozsoyoglu, N. Balkir, G. Cormode, and Z. Ozsoyoglu

Building a Digital Library of Newspaper Clippings: The LAURIN Project ............... 15
  D. Calvanese, T. Catarci, and G. Santucci

Invading the Fortress: How to Besiege Reinforced Information Bunkers ................. 27
  J. Hoppenbrouwers and H. Paijmans

Parallel Session 3A: Human Computer Interaction

Effects of Word Recognition Errors in Spoken Query Processing ............................... 39
  F. Crestani

Towards Supporting User-Defined Hypertext Contexts in Web Searching .................. 48
  Z. Qiu, M. Hemmje, and E. Neuhold

WebSSQL — A Query Language for Multimedia Web Documents ............................. 58
  C. Zhang, W. Meng, Z. Zhang, and Z. Wu

Parallel Session 3B: Knowledge Representation and Security

Mobile Agents and the SARA Digital Library ...................................................... 71
  Y. Yang, O. Rana, and C. Georgousopoulos
Copy Detection Systems for Digital Documents ........................................ 78
   D. Campbell, W. Chen, and R. Smith

Using Regular Tree Automata as XML Schemas ....................................... 89
   B. Chidlovskii

Session 4: Exhibition

Session 5: Panel I

DECOMATE II: Building the European Digital Library for Economics
   Panelists: Thomas Place, Jeroen Hoppenbrouwers, Ferran Jorba,
   and John Paschoud

Session 6: Semantic and Systems Interoperability I

Morphing Towards Interoperable Catalogues ........................................... 105
   D. Kuo, D. Smith, and C. Gokey

Audio Structuring and Personalized Retrieval Using Ontologies .................... 116
   L. Khan and D. McLeod

On Extending the XML Engine with Query-Processing Capabilities .................. 127
   K. Böhm

Parallel Session 7A: Document Models

Searching and Browsing Collections of Structural Information .................... 141
   J. Wolff, H. Flörke, and A. Cremers

An Integrated Metamodel for Knowledge Representation in Geolibraries .......... 151
   C. Baptista and Z. Kemp

Detecting Data and Schema Changes in Scientific Documents ...................... 160
   N. Adam, I. Adiwijaya, T. Critchlow, and R. Musick
Parallel Session 7B: Statistical Filtering

Clustering and Identifying Temporal Trends in Document Databases.......................... 173
   A. Popescul, G. Flake, S. Lawrence, L. Ungar, and C. Giles

Finding Themes in Medline Documents: Probabilistic Similarity Search ...................... 183
   H. Shatkay and W. Wilbur

Efficient Similarity Search in Digital Libraries .......................................................... 193
   C. Böhm, B. Braunmüller, H.-P. Kriegel, and M. Schubert

Session 8: Panel II

Digital Libraries for Science Education
   Panelists: from DLESE, GLOBE, NEEDS, ESIP Federation

Session 9: Open Workshops

Online Learning Environments: How Should Mr. Saylor Spend His Money?

Session 10: Semantic and Systems Interoperability II

BlueView: Virtual Document Servers for Digital Libraries ....................................... 207

A Boolean Query Processing with a Result Cache in Mediator Systems .................... 218
   J. Cheong and S.-G. Lee

A View System for CORBA-Wrapped Data Sources ................................................ 228
   A. Spiridou

Session 11: Invited Address

Title to Be Announced
   Speaker: Tom Baker, GMD — St. Augustin, Germany
