Message from the Chairs

The 2nd IEEE Asia-Pacific Service Computing Conference (IEEE APSCC 2007) is being held on December 11-14, 2007 in Tsukuba Science City, Japan. IEEE APSCC 2007 serves as a major international forum for researchers and industry practitioners to exchange information regarding advancements in the state of art and practice of foundations of service computing, mobile/ubiquitous/pervasive computing, grid/utility/web computing, service-centric computing models, service computing process integration and management. It also services to identify emerging research topics and define the future directions of services computing.

The IEEE APSCC 2007 Program Committee received 168 submissions internationally. There are 74 research papers selected in the proceeding through a comprehensive reviewing process involving more than 100 international experts. They give a very good perspective of the development and provide a framework for further enhancements in the field of service computing and the related research topics.

The success of the IEEE APSCC 2007 conference is due to the volunteer efforts of many people. We would like to thank to the members of the organizing committee, the program committee for their support and encouragement. We would also like to express the gratitude to the team in IEEE Computer Society for continuous supporting the conference.

We would also like to express our warm welcome to all the participants of IEEE APSCC 2007 in Tsukuba Science City. There are about 46 educational and research institutes and 230 private research institutes in Tsukuba which are often called the “brain of Japan”. Among these research facilities, some are open to public and are gaining popularity as tourist spots off the beaten track. We sincerely hope you enjoy the conference and the exchange with other participants.

IEEE APSCC 2007 Organizing Committee

Steering Committees Chairs: Hai Jin and Liang-Jie Zhang
General Chairs: Jiro Tanaka and Hiromu Hayashi
Program Chairs: Jie Li, Minyi Guo, and Qun Jin,
Local Arrangement Chairs: Yongbing Zhang and Masahiro Mambo
