Message from the ARES 2011 Workshop Co-Chairs

Welcome to the Workshops of the Sixth International Conference on Availability, Reliability and Security (ARES 2011).

The workshops are central events for ARES as they provide an essential platform for researchers of various domains to present and discuss their current work and discuss work in progress. This year we can offer the conference attendees 8 workshops which range from “start-ups” to well-established ones supporting ARES the sixth year.

The succeeding listing comprises the workshops of ARES 2011 (in alphabetical order):

1. DYADEM-FTS: The Second Workshop and Tool Session on DYnamic Aspects in DEpendability Models for Fault-Tolerant Systems
2. FARES: Sixth International Workshop on Frontiers in Availability, Reliability and Security
3. OSA: 3rd International Workshop on Organizational Security Aspects
4. PBD: First International Workshop on Privacy by Design
5. RISI: Workshop on Resilience and IT-Risk in Social Infrastructures
7. SECSE: 5th International Workshop on Secure Software Engineering
8. WSDF: 4th International Workshop on Digital Forensics

These workshops are organized each on specific topics and thus offer researchers the opportunity to learn from a rich multi-disciplinary experience. The Workshop Chairs would like to thank the workshop organizers for their great efforts and hard work in proposing the workshop, selecting the papers, the interesting programs and for the arrangements of the workshops during the conference days.

We hope you enjoy the workshops programs and proceedings.

ARES International Conference Workshops’ Co-Chairs

Ilsun You, Korean Bible University, South Korea
Gerald Quirchmayr, University of South Australia, Australia
A Min Tjoa, Vienna University of Technology, Austria
