## 1. Advances in Business Computing

<table>
<thead>
<tr>
<th>Title</th>
<th>Pages</th>
</tr>
</thead>
<tbody>
<tr>
<td>A Forcasting Model of Financial Crisis for Enterprises: Based on the Empirical Research of Listed Petrochemical Enterprises</td>
<td>1</td>
</tr>
<tr>
<td>Liu Xiaolong and Li Zhi</td>
<td></td>
</tr>
<tr>
<td>A Method of IT Investment Portfolio Optimization in the Government Sector Integrated with IT Governance</td>
<td>6</td>
</tr>
<tr>
<td>Xia Zhijie</td>
<td></td>
</tr>
<tr>
<td>A Model to Optimize Green Energy Supply Chain</td>
<td>10</td>
</tr>
<tr>
<td>Na Liu</td>
<td></td>
</tr>
<tr>
<td>A Research on the Influencing Factors of the Price of Real Estate</td>
<td>14</td>
</tr>
<tr>
<td>Xiaoshan Cai and He Chen</td>
<td></td>
</tr>
<tr>
<td>A Service Quality Evaluation Model and its Application Based on Customer Perception in B2C Companies</td>
<td>18</td>
</tr>
<tr>
<td>Yanna Zhang and Honglian Guo</td>
<td></td>
</tr>
<tr>
<td>A Study of Logistics Industry Modularization Mode Based on Value-network Theory - Case on Taizhou Logistics Park in Zhejiang, China</td>
<td>22</td>
</tr>
<tr>
<td>Shen Yuyan and Qian Yan</td>
<td></td>
</tr>
<tr>
<td>A Study on Relationship between Analysts’ Earnings Forecasts Accuracy and Recommendations Investment Value</td>
<td>26</td>
</tr>
<tr>
<td>Yuxi Wang and Jun Xiao</td>
<td></td>
</tr>
<tr>
<td>A Study on the Synthetic Evaluation Model of Third-Party Pharmaceutical Logistics Companies</td>
<td>30</td>
</tr>
<tr>
<td>Su Xiao</td>
<td></td>
</tr>
<tr>
<td>Title</td>
<td>Page</td>
</tr>
<tr>
<td>------------------------------------------------------------------------------------------------</td>
<td>------</td>
</tr>
<tr>
<td>A Survey and Empirical Study of Employee Satisfaction in Growing Small and Micro Businesses</td>
<td>34</td>
</tr>
<tr>
<td><em>Ou Yang Zhen An and Tan Hong Fang</em></td>
<td></td>
</tr>
<tr>
<td>An Evolutionary Analysis of Listed Companies' Disobeying the Regularities Behavior</td>
<td>39</td>
</tr>
<tr>
<td><em>Shiliang Xia</em></td>
<td></td>
</tr>
<tr>
<td>Analysis of Characteristics of Passenger Flow of Zhaojiabang Road Station on Shanghai Rail Transit Line 9</td>
<td>43</td>
</tr>
<tr>
<td><em>Li Hongyan, Zhang Hua, and Hu Xi</em></td>
<td></td>
</tr>
<tr>
<td>Application of Lean Construction to Chinese Construction Industry Based on BIM Technology</td>
<td>47</td>
</tr>
<tr>
<td><em>Jin Hao</em></td>
<td></td>
</tr>
<tr>
<td>Application of System Dynamics in Construction Project Planning and Control</td>
<td>51</td>
</tr>
<tr>
<td><em>Wang Yu-jing</em></td>
<td></td>
</tr>
<tr>
<td>Arguments against Individual Accounts in China’s Basic Pension System: The Comparison between Financial Defined Contribution and Notional Defined Contribution</td>
<td>55</td>
</tr>
<tr>
<td><em>Fang Liu and Xiaodan Weng</em></td>
<td></td>
</tr>
<tr>
<td>Can State Ownership Facilitate Trade Credit Financing?</td>
<td>59</td>
</tr>
<tr>
<td><em>Ying Qian-wei, Jiang Tian-jiao, and Yang Tian</em></td>
<td></td>
</tr>
<tr>
<td>China’s Open-end Fund Investment Style Drift and Fund Performance Empirical Analysis</td>
<td>64</td>
</tr>
<tr>
<td><em>Shubo Cao</em></td>
<td></td>
</tr>
<tr>
<td>Competitive Advertising Strategies with Advertisement Effect Function</td>
<td>68</td>
</tr>
<tr>
<td><em>Zhu Meng and Wang Hong</em></td>
<td></td>
</tr>
<tr>
<td>Competitive Mechanism of FDI and Time-lag of Spillovers</td>
<td>71</td>
</tr>
<tr>
<td><em>Sui Yining, Huang Yaning, Sun Chenhui, and Zhang Dixin</em></td>
<td></td>
</tr>
<tr>
<td>Cost and Benefit Analysis of Reverse Logistics</td>
<td>75</td>
</tr>
<tr>
<td><em>Chen Ya-Ping</em></td>
<td></td>
</tr>
<tr>
<td>Credit Contract between Bank and Third-party Logistics Firm in Inventory Financing in China</td>
<td>78</td>
</tr>
<tr>
<td><em>Peng Xu, Hao Li, Yong Wang, and Kai Rao</em></td>
<td></td>
</tr>
<tr>
<td>Credit Risk Measurement on Customers of B2B Market</td>
<td>83</td>
</tr>
<tr>
<td><em>Jun Yuan and Cheng Yang</em></td>
<td></td>
</tr>
<tr>
<td><em>Huaguang Yan</em></td>
<td></td>
</tr>
<tr>
<td>Empirical Analysis of Retail Format’s Evolution Law Theory</td>
<td>91</td>
</tr>
<tr>
<td><em>Cheng Yanfei, Liu Yang, and Liu Lian</em></td>
<td></td>
</tr>
</tbody>
</table>
Empirical Analysis of Dividend Policy Based on Listed Companies of China’s IT Industry
Jianqiang Guo, Bingqiang Mu, and Lihua Ma

Evolutionary Game Analysis of the Reverse Supply Chain Based on the Government Subsidy Mechanism
Wu Xiaoxi and Xiong Wei-qing

Factors that Influence IPO Volume Fluctuation - Based on Chinese A-share Market
Li Fang and Tang Zhen

Institution Change, Government Behavior and Private Economic Development of Pearl River Delta
Xiaoshan Cai and He Chen

Market Condition and Mutual Fund Flow-Performance
Jun Xiao

Market Reaction to the Impact of Internal Control on Earnings Persistence: Empirical Evidence from Listed Companies During the Period of 2007 to 2010
Zhang Zhiping and Fu Guangxin

Operations Management with E-commerce
Zhu Junxuan and Wu Zhong

PCA-based Research on the Comprehensive Strength of Logistics Park
Han Yang

Portfolio Sensitivity Analysis with Asset Decrease Based on CVaR
Xu Yong Chun

Precautionary Savings and Industrial Structure in Shanxi Province
Chen Kai and Xi Jing

Quantitative Analysis of Relationship between “Three Lines” in Shanghai
Junhui Fan

Research for Closed-loop Supply Chain Price Models under Uncertain Demand
Weimin Ma and Jialian Sun

Research of Revenue Sharing Contract Based on Prospect Theory
Zhang Xiaoli

Research of the Risks and Strategies of SME’s Supply-chain Financing
Huang Xinxiang

Research on Asymmetric Response of Overinvestment to Monetary Policy
Zhao Shijun and Zhu Yingying

Research on Key Performance Indicator (KPI) of Business Process
Wang Pan and He Wei

Research on Legal Nature and Disposal Methods of Interest Accrued from Precipitation Capital under Third Party Payment
Zhang Min and Li Hui
Research on Service Quality Evaluation Method of Automobile 4S Stores .........................................................159
   Cheng Yun and Chen Guo-ping

Research on the Application of 4Ps Marketing Theory Based on Chinese Consuming Conceptions ..............................................................163
   Liangfang Huang and Lingling Wang

Research on the Formation and Function of Cultural Assets and Property Exchange Market ..................................................................................167
   Qi He, Hui Zhang, and Changchun Gao

Research on the Matching Relation between Shanghai’s Demand and Supply of Commercial Residential Housing .................................................................171
   Yan Xiaoli and Niu Bing

Research on the Theoretical Model of Psychological Factors of Borrowers with Residential Mortgage Loan ...........................................................................175
   Shang Yaohua

Resource Sharing under Open Innovation and Greening Organizational Performance: Mediating Effect of Knowledge Transfer ...........................................................................179
   Jianguang Le and Zhenglong Peng

Risk Management: VaR Model for Information Disclosure .................................................................................................................183
   Yuhua Zheng

Spatial Econometric Analysis of Housing Price of Chinese Provinces .............................................................................................................187
   Hu Zhaohui

Study of Village-level Financial Management in Poverty-stricken Counties ......................................................................................................191
   Gongrong Chen and Danlei Liu

Study on Corporate Financial Diagnosis Based on Free Cash Flow - Taking Sichuan Changhong Group as an Example .................................................................195
   Chu Liqin

Study on the Relevance of Intangible Assets and Company’s Values Based on the Listed Companies of IT Industry .........................................................................199
   Zhanxia Wu and Haojun Ma

Supply Chain Partnership Research Based on Customer Satisfaction Degree ......................................................................................................203
   Lihua Shi

SWOT Analysis on the Supermarkets in China .................................................................................................................................206
   Cheng Yanfei and Zhang Yafeng

The Analysis of IKEA’s Value Chain Management Strategy ................................................................................................................210
   Rui Han and Xin Zhong

The Analysis on Impact Effectiveness of Context on Organizational Politics Perception ........................................................................................................213
   Xingguo Yuan
The Company Performance, Innovation Investment and the Company Scale - Based on the Analysis of the Listed Companies in Hubei Province .......................................................... 218
Wan Xianglan

The Empirical Research Based on the Choice of the Benchmark Interest Rate in Our Country’s Money Market ................................................................. 221
Zhao Jun Zhang

The Empirical Study of Motivators for Online Shopping Demand Based on Behavior Analysis ........................................................................................................ 225
Kang Boyu

The Establishment of Perceived Risk and Trust in E-commerce ................................................................................................................................. 229
Lu Ye

The Influence of Chinese Government Expenditure on Resident Consumption: Research Based on DSGE Model .......................................................... 233
Peng Xiaolian

The Phenomenon of Abnormal Net Redemption in Chinese Fund Market ................................................................. 238
Yang Xue, Yi Ding, and Dixin Zhang

The Price of Finite Horizon Lookback Game Options ......................................................................................................................... 242
Guo Peidong

The Relationship between Inflation and its Uncertainty in China’s Economy .......................................................... 246
Yiting Fu

The Study on the Risk Management of Agricultural Products Green Supply Chain Based on Systematic Analysis ............................................................. 250
Li Qianlei

The Vertical Constraints of the Agricultural Product Prices ............................................................................................................... 254
Lingling Li

Understanding Consumers’ Intention to Use Mobile Payment Services: The Perspective of University Students in Northern Jiangsu Area .......................................................... 257
Binbin Liu

2. Advances in Global Informatization

A Research on Civil Legal Liability under Unauthorized Payment in Mobile Payment .......................................................... 261
Min Zhang and Cheng Qian

A Research on the New Firms’ Merger and Acquisition - From the View of Taking Human Capital as the Crucial Resource .......................................................... 265
He Chen and Guanghui Chen

A Study on Government Website Governance - A Practical Analysis to UK Government Website .......................................................... 269
Xiao-ying Zhou, Xi-peng Wei, and Ting Wang
A Study on the Comparison between Human-Capital-intensive Firms and Physical-Capital-intensive Firms ............................................................. 273
Chuangwei Lin and He Chen

Affect of IT Barriers on SME’s Technological Innovation and Role of Elderly Technological Talents under Global Information Background .................................................. 276
Li-na Cao and Yong-le Zhao

Alleviating the Residents’ Income Gap in China ................................................................. 279
Wenyi Dong and Xinyu Sun

An Analysis to Relational Contract-Based Supply Chain Partnership ........................................... 283
Tang Shi-Qiang

An Empirical Study of Web2.0 for Improving the Government Website’s Ease of Use Based on Information Distance ............................................................. 287
Yu Sheng

Analysis of the Dynamic Mechanism of Synergic Innovation between Productive Service Industry and Manufacturing Industry ......................................................... 291
Liu Ying

Analysis on China Industrial Energy Consumption Based on Grey Theory ........................................ 295
Xin-dong Hao

Analysis on the Current Situation of Digital Resources Integration in China ........................................ 298
Hu Cui-hong

Analysis System Based on SPSS and FAHP for Performance Evaluation of Network Marketing ................................................................. 302
Mingyan Wang and Zhong Wu

Application of Machine Language during the Transmit in Tacit Knowledge of Elderly Technological Talents ................................................................................................................. 307
Li-na Cao and Yong-le Zhao

Automatic Identification of Knowledge Points from Program Code Based on Syntax Feature Tree ................................................................................................................. 310
Cihai Sun and Hualing Liu

Chinese Cultural Heritage Protection & Tourism Development Study ................................................... 314
Xinliang Ye and Ruihong Sun

Co-integration Analysis of Urbanization Development and Service Sector Growth in China ................................................................................................................. 319
Jia-xiang Hong

Comparative Study of the International Finance Lease’s Development Path ........................................... 323
Wu Zhanxia, Fang Jianqi, Chen Xuhui, and Chai Yang

Comparative Study on XBRL Disclosure of Financial Information for Listed Companies between China and America ................................................................. 327
Wu Zhanxia, Yang Xi, Ou Mengwei, and Yang Ruitao
Comparison Research on the Wisdom City Regional Development in Yangtze River Delta Region-based on Data from “Two Provinces One City” ......................................................331
  Zhang Lei and Wu Zhong

Current Situation and Promoting Strategies of Renminbi Internationalization ..........................................................335
  Fang Liu and Yingfei Zheng

Determining the Phases and Duration of Business Cycle in China Economy .................................................................339
  Haitao Lin

Differences between Sino- American Cultural Values from Intercultural Communication Perspective ......................................................343
  Wang Ying

Disruptive Innovation, Market Strategy and Industry Growth: Based on the Case Study of VCD Industry ..........................................................347
  Xiang Jiying

Education of Business Managers in the Background of Internalization .............................................................350
  Song Shaofu

Electronic Bill of Lading’s Title Transfer in International E-commerce .................................................................354
  Guo Hong

Empirical Research on the Relationship between Technological Structure of Export and RMB Exchange Rate ..........................................................357
  Ai Wei

Evolution of Transaction Mechanism and Risks Control: Comparison between International E-commerce and Traditional International Trade ..........................................................361
  Guo Hong

  Jiang Jing and Song Shuo

Literature Review of Monetary Policy Transmission ..............................................................................................................369
  Li Lin and Li Fei

Measuring Barriers of China’s Inbound Tourism Trade in Services: For Instance between America ..........................................................373
  Yu Zhou

  Yao Jiejing and Peng Hui

Organizational Crisis Management and Public Policy Problem ..........................................................................................380
  Yi Liu and Yan Guo

Regional Competitiveness of High-Tech Industry in China Based on Dynamic Shift-Share Analysis ..........................................................384
  Wang Qi

Research on GERT Network Model of the Evolution of Resource Crisis ..................................................................................388
  Ju Yang, Linyi Zhu, and Hualu Zhao
Research on Strategic Emerging Industry Innovation Cluster Operation Mechanism and Countermeasures .......................................................... 392
  Shi Minghong

Research on the Development Countermeasure of China in the Context of Global Informatization ................................................................. 395
  Niu Yi and Liu Wei

Research on the Present Development Situation of Chinese QFII System and International Comparison .......................................................... 399
  Song Yu and Fan Minhong

RMB Internationalization and Shanghai International Financial Center Construction Research ........................................................................ 403
  Liu Xilin

Study of Social Security System Construction for Female Migrant Workers .............................................................................................. 406
  Qiao Juling and Liu Fang

Study on Cross-cultural Marketing of Western Luxury Commodities in China ............................................................................................. 410
  He Chang, Yuan Rongchang, and Wang Zhifang

Study on the Construction of the Virtual International Trade Center ................................................................................................. 414
  Ding Chao-xun

The Comparison between Newspapers in Hong Kong and Mainland and its Enlightenment – A Case Study on Apple Daily and Southern Metropolis Daily ................................................................. 418
  Xiaotong Wang

The Impact of Geographical Adjacency and Information Transparency on the Practice of Regional Innovation .................................................. 422
  Xingyou Zheng and Peng Wang

The Influence of Electronic Word-of-Mouth Authenticity on Customers’ Behavior ..................................................................................... 427
  Junfeng Liao and Jiaying Yang

The Intrinsic Value of Company, Investor Sentiment and the IPO Under-Pricing in the Growth Enterprise Market .................................................... 431
  Yu Xiao-hong, Zhang Xue, and Li Yan-Yan

The Research of Contribution Rate Model for Informatization Investment in Grid Enterprises ........................................................................ 435
  Kehe Wu, Yayan Zhu, Jiannan Liu, Xianji Wang, Minghui Pan, and Guowei Liu

The Technological Progress Effects of International Trade and Wage Gap - Analysis Based on Inter-Provincial Panel Data of Chinese Manufacturing Industry ........................................................................ 439
  Zhu Qinglian and Xiong Weiqing

Trade Liberalization and Technology Innovation ................................................................................................................................. 443
  Qian Wang and Lei Zhang

Comprehensive Evaluation of Shijiazhuang Industrial Competitiveness ..................................................................................................... 447
  Qingxia Zhao
Feature Terms Analyzing Strategy for Recruiting Websites ................................................................. 451
   Xu Hong, Yongjun Zhang, and Zhang Jiong

Geographic Information System Application in Ecotourism ............................................................... 454
   Xie Ai-liang

Information and Regional Economic Growth - Taking the Case of Shandong Province ....................... 458
   Fu Guangxin and Yan Shuzhen

Issues and Countermeasures of the Internet of Things in the View of Low-Carbon Economy ................. 461
   Han Chao-Sheng

Key Factors and Calculation Model of Experience Innovation Management - The Discussion of Industrial Tourism under the Experience Economy ................................................................. 465
   Jiang Jing

Research on Web Service-Based Virtual Enterprise Process Model ....................................................... 469
   Xingping Sun, Hongwei Kang, Zhihong Liang, Shenglin Yang, Yong Shen, and Qing Duan

Study on Estimating Quality of China’s Native Export Products .......................................................... 473
   Wang Taosheng, Tan Haiyu, and Yi Ping

The Applied Research of Information System Project Management in Logistics Enterprises .................. 477
   Zhijun Tang

The Development and Countermeasures Research on China’s Network Culture Industry ....................... 481
   Liu Yajuan and Liu Bo

User Information Satisfaction with a Knowledge-based Virtual Community: An Empirical Investigation ............................................ 485
   Xiao-Ling Jin and Li Xiong

3. Mathematical Foundation in BCGIn

A Data Mining Framework Based on XML ............................................................................................. 489
   Hongchang Wei, Zhijuan Wang, Lili Yu, and Yameng Ban

A High Accurate Difference Scheme for Hamilton-Jacobi Equations .................................................... 493
   Wei Xu and Ling-Hui Chen

A Modified Extra-Gradient Method for Quadratic Optimization ............................................................. 497
   Weiping Ding and Zheng Peng

A New Fraction Frequency Offset Estimation Algorithm for TD-LTE System .......................................... 500
   Fa-tang Chen and Wang Teng

A New Rough Set Model Based on Partial-Similarity Relation ............................................................... 504
   Yan Ruixia

A Query Keywords Based Approach for Noisy Data Elimination .......................................................... 508
   Ying-Kui Wang and Qian-Mao Tan
Adaptive Watermarking Algorithm of Image Based on the Human Visual System ..........................................................511
   Xiuli Wang, Weihua Xie, and Xuan Wang

Algorithm with Weighted Attributes for Unresolved Exception in Decision Tree Induction Algorithm ........................................515
   Ying Cao and Chunhai Zhang

An Implementation Method of Nonlinear Scaling Algorithm .................................................................................................518
   Ye Yuan and Zhongyu Tian

An Improved Iterative Algorithm of Neural Network for Nonlinear Equation Groups ........................................522
   Qing Lan Zhao and Wen Li

An Improved Online Stream Data Clustering Algorithm ......................................................................................................526
   Lingjuan Li and Xiong Li

Based-on Pi-calculus Business Process Modeling ..................................................................................................................530
   Hongfa Xu and Wei Chen

Community Structure Detection Algorithm Based on Rough Set ...............................................................................................533
   Zilu Cui, Wei Chu, and Yuchen Fu

Empirical Study on Social Media Marketing Based on Sina Microblog ..................................................................................537
   Chunmei Gu and Shanshan Wang

Estimation and Elimination of Noise for ICA Based Blind Multiuser Detection .........................................................................541
   Xiaohong Bai, Hui Li, and Gang Xing

Evaluation Model for Enterprise’s Innovation Vigor on Fuzzy Mathematics ........................................................................545
   Bin Hu

Method for Group Decision Making with Multi-Attribute Based on Electre III of Stochastic Dominance Relation ................549
   Chen Jianzhong and Shen Feng

Mixed Climbing Particle Swarm Algorithm in the VRP ..............................................................................................................554
   Binda Wang, Kejing Wang, Fuguang Bao, Lei Zhang, and Li Shen

Nonlocal Problems of Nonlinear n-th Order Mixed Impulsive Integro-Differential Equations in Banach Spaces ..................558
   Shengli Xie

Study on Innovative Capability Evaluation of Knowledge-innovation Talents Based on AHP: A Case Study on Henan Province 562
   Ying Cui

Techniques for Dynamic and Diversified Relaxation in Constraint-Based Recommender Systems ...........................................565
   Liang Zhang

The Analysis of Guangxi Beef Production Forecast Based on GM (1,1) Model ........................................................................569
   Dewang Li

The DMT-Based Bit-Power Allocation Algorithms in the Visible Light Communication ...........................................................572
   Sun Zhengguo, Zhu Yijun, and Zhang Yanyu
The Homogeneity and Heterogeneity Hypothesis Test of the Relative Risk .................................................................576
Yawei Wang, Xueli Wang, and Meng Xiao

The Priority Backoff Algorithm and PUSCH Power Control for Random Access in TD-LTE Trunking System .................................................................580
Hong Tang, Meijia Lei, Xueqian Wang, and Cong Sun

The Properties of Bivariate Geometric Distribution-Type II .....................................................................................584
Xu Xiaoling, Gu Beiqing, and Wang Ronghua

Tightly Coupled GPS/INS Integrated Navigation Algorithm Based on Kalman Filter ................................................588
Jinliang Zhang, Tao Zhang, Xuehuan Jiang, and Sishan Wang

Verification and Analysis of RSSP-1 Protocol Based on Colored Petri Nets ............................................................592
Weiwei Guo, Huibing Zhao, and Guo Zhou

Customizing Privacy Protection in Data Publishing ..................................................................................................596
Jie Wang and Jun Zhang

4. Infrastructure and Systems for BCGIn

A Bidirectional Backup Routing Protocol for Mobile Ad Hoc Networks .................................................................603
Peng Zhou and Weihua Li

A Resource Distribution Algorithm Based on Node Factors of Transmission for Ad Hoc Network .................................................................607
Xiaofeng Xu and Guohua Wei

An Effective Low-Delay Server Routing Algorithm in WPAN Meshes .................................................................611
Zhi Ren, Kunlu Wang, Hongjiang Lei, and Jianlin Cao

Building Collaboration System of Air Logistics Service Chain Based on Cloud Computing .................................................................615
Ming Zhao

Comprehensive Analysis Method on the 2-mode Network of Expert Consultation ..................................................618
Zhao Feng, Wang Shu-Ning, and Yang Ke-Wei

Construction of Data Centre in Campus Network .................................................................................................622
Cai Jun, Zhang Zhuo, and Ji Zhengnan

Continuous Spectrum Sensing in Cognitive Radio Networks ................................................................................625
Hanqing Ding and Zhiyuan Zhao

Controllability Synthesis of Compartmental Networks with Single Leader ..........................................................629
Ma Haiying and Cai Ning

Data Modeling and Analysis Based on the Automated Storage and Retrieval System ........................................633
Yu Xi and Xu Fangqin

Design and Implementation of an LBS Application Server Software Based on the PUB/SUB Paradigm .................637
Wang Guoshi, Zhao Fang, Wang Rui, and Luo Haiyong

Design and Implementation of WiFi Network Based Mobile Location Service System ........................................641
Zhang Lingcui, Zhao Fang, Li Zhaohui, Luo Haiyong, and Xu Junjun
Design of Building Energy Monitoring and Management System ......................................................... 645

Zhong Bocheng

Downlink MIMO Signal Detection Algorithm in TD-LTE System ....................................................... 649

Xiaolin Li and Wenwen Liu

Exploration on Platform’s Construction of Teaching Resources in Higher Medical University ................................................... 653

Deliang Wen, Ziwei Wang, Xiaofei Feng, and Yang Sun

From the Perspective of Heterogeneity - The Influence of Network and Knowledge on Innovation in New Ventures .............................................................................................. 656

Yang Junping, Wang Qiaoyin, and Tang Lubin

Implementation of Network VTP Domain for Computer Experimental Teaching Demonstration Center ................................................... 660

Ping Li and Hualing Liu

Improvements of LEACH Protocol in Wireless Sensor Networks ....................................................... 664

Hongqin Liu and Shaochuan Wu

Institutionalization of Development and Construction of Internet Education Resource in Colleges and Universities ................................................... 668

Chen Xue Hai

Internet of Things Technology-based City Logistics Platform Design and Construction ................................................... 672

Huanjun Jiang, Xiang Ren, Qing Zhou, Xiao Liang, Shudi Yan, and Ke Liu

Issue about Security of E-business Under the Pattern of Cloud Computing ................................................... 676

Li Xia

Loss Detection Mechanism in SCTP Heterogeneous Wireless Networks ................................................... 679

Tianjiao Liu, Changqiao Xu, Jianfeng Guan, and Hongke Zhang

Low-Carbon Transportation Research in Wide Area Sparse Road Network - Construction of Highway Information Service Platform Based on ASP ................................................... 683

Yun Gao, Limin Jia, and Guoqiang Cai

MCS Selection for Performance Improvement in Downlink TD-LTE System ................................................... 687

Yingying Ji, Fatang Chen, and Limin Liu

Performance Analysis of Ad Hoc Networks in the Presence of Hidden Terminals ................................................... 691

Gao Shengguo and Zheng Zhongtuan

Research of Intelligent Model of Optimal Route for the Urban Public Transport ................................................... 695

Li Yuewen and Wu Zhong

Research of the Wireless Localization Technology Based on ZigBee ................................................... 699

Xinran Li and Mian Chen

Research on a Method of Using Whole Sort Timestamp Vector Method in Massive Data Update Conflicts ................................................... 702

Liu Qian and Zhang Chun-Hai

Research on Key Technology of Video Chat ................................................... 705

Gan Hongchao and Lei Yu
Research on Product Engineering Change from the Perspective of Management
Information System Framework ........................................................................................................710
Yu-Lan Jin

Research on the Constructing Performance Evaluation System of Commercial Banks ...............713
Jin Jingyu and Yuan Heng

Research on the Features of Internet-of-Things-based Wisdom Mall ............................................717
Luo Xiaodong

Research on Urban Safety Operation System Analysis .....................................................................721
Yong Meng and Yu-lan Jin

Research on Web Service-Based Virtual Enterprise Model Architecture .........................................724
Shenglin Yang, Hongwei Kang, Zhihong Liang, Xingping Sun, Yong Shen, and Qing Duan

Research on Web3.0 Application in the Resources Integration Portal ..............................................728
Hu Cui-hong

Simulation and Verification of RSSP-II Safety Communication Protocol ........................................731
Menghua Xu and Huibing Zhao

Stream Regeneration with Regenerating Codes for the Fault-Tolerant of Cloud Storage ................735
Pengxu Tan, Yue Chen, Chaoling Li, and Gang Yang

Study Method of Enterprise Micro-blogging Followers’ Community Based on Social Network Analysis - Take Spring Airlines as Example .................................................................739
Liu Yinbin and Geng Mengyi

Study on Development of Trucking Systems ..................................................................................743
Shuge Tian and Li Hongyan

Technology of VOD and Video Compression in Online Question Answering System of Campus Network ..........................................................................................................................747
Gui’e Jiao

The Application of TTCN-3 in the Conformance Testing of TD-LTE System .................................750
Hongcheng Dong, Limin Liu, and Xiaowen Li

The B to C Shopping Website Open Platform and an Associate Strategy ........................................754
Ni Qing-Ping, Yang Chun-Yue, and Zhang Chen

The Construction of Logistics Information Platform Based on Mobile Social Network Service ........758
Zhengwei Huang and Yanni Yang

The Construction Strategy Research of College Network Sports Information Resources .................762
Li Chaofu and Xie Bende

The Design and Implementation of Android File Access Control System .......................................766
Linya Huang and Qiaoyan Wen

The Design and Implementation of Urban Rail Transit Optimal Transfer System Based on Improved Ant Colony Algorithm ....................................................................................................770
Liu Sheng and You Xiaoming
The Design and Implementation of Web-based FTP Remote Management System ........................................774
  Ping Li and Xuezheng Zhang

The Web Development Based on the Drupal System .................................................................778
  Xiaoli Cheng and Ziniu Wang

Undertaking Productive Service Outsourcing and China’s Upgrading of Industrial Structure ..........................................................781
  Ruiqin Jing

Using Multiscale Entropy Method to Analyze the Complexity of Traffic Flow .................................................................785
  Zhengtao Xiang, Yujin Li, and Li Xiong

Vehicle Management Information System Based on UML ..........................................................789
  Lan Jin and Xiujuan Liang

5. Miscellaneous Interests in BCGIn

(d,1)-total Labeling Number of the Product of Path and Fan ..........................................................793
  Han Xue and Zhang Sumei

A Study on Technical Comparison of Figure Skating Pairs Free Skating between Chinese and Foreign Athletes ..........................................................797
  Gao Jinku

An Improved Application of XBRL Formula Linkbase in the CAS Taxonomy ..................................................800
  Kai Zhou, Min Huang, and Ying Wang

Coordination between the Intellectual Property Enforcement in the Digital Environment and the Data Security ..................................................804
  Xin Xu

Corporate Environmental Risks Management Control and Empirical Research ........................................808
  Kun Xie

Design of Contract Management System Based on J2EE Architecture ..................................................812
  Ding Wenwen, Chen Yan, and Jiang Zhuoren

Designing Resource Information Service System with CALIS Standard ...........................................816
  Bo Zhou and Wenliang Liu

Detect Adverse Drug Reactions for Drug Alendronate ..................................................................820
  Yihui Liu and Uwe Aickelin

Earning Quality after Privatization & Its Drivers: A Comparison between Private-owned and State-owned Public Companies .........................................824
  Lu Jiuqin and Hui Fengting

Electronic Commerce Application in Tourism Agents .....................................................................828
  Liu Zhongxiu

Empirical Research on the Competency Model of Senior Researchers ........................................832
  Wen Cheng and Guoliang Zhang
Empirical Study on the Relationship between Environmental Uncertainty, Dynamic Capabilities and Performance in North Jiangsu

Ma Weidong and Mao Dingxiang

Entrepreneurship, Entrepreneur, and the Centralized Contractual Agent

Xiaoshan Cai and He Chen

Expanding Variety of Products vs Intermediate Goods

Xi Jing

Fuzzy Clustering Analysis on Performance of Listed Tourism Companies

Sun Ying and Wang Min

Grey Correlative Analysis of Logistics Industry and Pharmaceutical Industry in Hebei Province

Yang Jingmei, Gao Yuanxiu, and Wang Lei

Influence of Floating Cars on the Performance of Information Feedback Strategies in Symmetrical Two-Route Scenario

Zhengtao Xiang, Yujin Li, and Li Xiong

Integration of High-tech SME R&D and Marketing Strategy Based on the Life Cycle Theory

Jie Wang and Zhen Tang

Measurement of Barriers to Trade in Financial Services between China and the United States

Qianying Bao

Mining Core Groups Based on Network-Influence Set for Web Viral Marketing

Xia Xiu-feng and Zhang Xiao-fei

Network Game and Network Formation with Synergy Effect

Fu Yunbin, Yan Yunzhi, Lu Guilin, and Wang Hanxing

Optimization of Rail Transit Departure Frequency Based on Fuzzy Clustering - Take Shanghai Rail Transit Line 9 for Example

Wu Zhong and Li Hanwei

Orientation and Optimization Strategy Research on the Function of Electronic Commerce Industrial Park

Ke Limin

Overall Reflections on Establishing China’s Ecotourism Legislative System

Wang Qian

Reform and Implementation of Experimental Teaching for Demonstration Center

Ping Li and Quan Jin

Regional E-Government Readiness Evaluation Based on Administrative Ecology Theory

Yue Liu and Liang Zhou

Research on Business Model Innovation Method Based on TRIZ and CBR

Ming Shao, Junwu Ding, Maohua Ding, and Xiao Liu
