Message from the ETCS 2015 Workshop Chairs
BD CLOUD 2015

On behalf of the ETCS 2015 organizing committee, we are honored and delighted to welcome you to the 2015 International Workshop on Emerging Topics in Computer Science (ETCS 2015).

The scope of ETCS 2015 includes a wide variety of topics, including the parallel and distributed computing, trust, security and privacy, automation and control engineering, pattern recognition and artificial intelligence, multimedia systems and networks, embedded computing and systems, emerging software techniques, applications, business and social issues and CPS and Internet of things, etc. ETCS 2015 provides a forum for academic and industry researchers to present their ideas and thoughts related to techniques and applications in Computer Science.

This proceeding includes all papers presented at ETCS 2015. With the help of the program committee, we selected 8 high-quality papers covering various research topics of localization, software engineering, motion control, etc.

Our sincere thanks are due to all authors for their submissions. We are also grateful to the program committee members and external reviewers for their hard work and commitment to quality. We are confident that you will find the program stimulating, insightful, and thought provoking. Finally, we also hope that everyone enjoys the workshop venue in the beautiful coastal city, Dalian.

Zhaobin Liu, Dalian Maritime University, China
Yanli Yu, Dalian Nationalities University, China
ETCS 2015 Workshop General Co-chairs
