# Table of Contents

*Beliv Workshop Organization* ........................................ iii

*Preface* ........................................................................ v

*Table of Contents* ............................................................. vii

*Invited Talk: Jon Tennant*

Reproducibility: Or, how I learned to stop worrying and love Open Science ....................................................... ix

*Yuet Ling Wong, Krishna Madhavan, and Niklas Elmqvist*

Towards Characterizing Domain Experts as a User Group ................................................................. 1

*Stanislaw Nowak, Lyn Bartram, and Thecla Schiphorst*

A Micro-Phenomenological Lens for Evaluating Narrative Visualization .................................................. 11

*Mai Elshehaly, Natasha Alvarado, Lynn McVey, Rebecca Randell, Mamas Mamas, and Roy Ruddle*

From Taxonomy to Requirements: A Task Space Sampling Approach ..................................................... 19

*Anamaria Crisan and Madison Elliott*

How do we hold up? Comparing and Contrasting Evaluative Practices in InfoVis with those of other Disciplines ............................................................. 28

*Xiaoying Pu and Matthew Kay*

The Garden of Forking Paths in Visualization: A Design Space for Reliable Exploratory Visual Analytics ........ 37

*Steve Haroz*

Open Practices in Visualization Research ........................................................................................................ 46

*André Calero Valdez, Anne Kathrin Schaar, Julian Romeo Hildebrandt, and Martina Ziefle*

Requirements for Reproducability of Research in Situational and Spatio-Temporal Visualization ................. 53

*Hendrik Lücke-Tieke, Philipp Schader, Thorsten May, Jürgen Bernard, and Jörn Kohlhammer*

Lowering the Barrier for Successful Replication and Evaluation .................................................................. 60

*Lace M. K. Padilla*

A Case for Cognitive Models in Visualization Research .................................................................................. 69

*Beatriz Sousa Santos, Samuel Silva, and Paulo Dias*

Heuristic Evaluation in Visualization: An Empirical Study ........................................................................ 78

*Donghao Ren, Bongshin Lee, Matthew Brehmer, and Nathalie Henry Riche*

Reflecting on the Evaluation of Visualization Authoring Systems ............................................................. 86
Poorna Talkad Sukumar and Ronald Metoyer
Towards Designing Unbiased Replication Studies in Information Visualization 93

Robert Kosara and Steve Haroz
Skipping the Replication Crisis in Visualization: Threats to Study Validity and How to Address Them 102
