Message from the International Workshop Organizers
CWECS 2011

Welcome to Technical University of Catalonia, Barcelona, Spain and the Second International Workshop on Cloud, Wireless and e-Commerce Security (CWECS 2011), which will be in conjunction with the Sixth International Conference on Broadband and Wireless Computing, Communication and Applications (BWCCA-2011) and the Sixth International Conference on P2P, Parallel, Grid, Cloud and Internet Computing (3PGCIC-2011) at Barcelona, Spain from Oct. 26 to Oct. 28, 2011.

Computer network and communication have been a part of our everyday life. People use them to contact others almost anytime anywhere. However, hackers due to business benefits, enjoying their skill/professional achievement or some other reasons very often attack, intrude or penetrate our systems. This is the key reason why computer/network security has been one of the important issues in computer research. Many researchers have tried to do their best to develop system security techniques and the methods to protect a system. But system attacks still occur worldwide every day. In fact, current system security technology is far away from prefect and should be continuously improved.

The aim of this workshop is to present the innovative researches, methods and applications for mobile commerce, cloud computing, network and communication security. Other network related papers are also welcomed. The workshop contains high quality research papers, which were selected carefully by Program Committee Members. We selected 11 papers which will be presented in 3 sessions: Steganography, Cryptography and DoS Attacks; Forensics, Anti-Forensics and Digital Evidences; and System Applications and Grids.

It is impossible to organize such a successful program without the help of many individuals. We would like to express our appreciation to the authors of the submitted papers, and to the program committee members, who provided timely and significant reviews.

We hope all of you will enjoy CWECS-2011 and find this a productive opportunity to exchange ideas with many researchers.

CWECS-2011 International Workshop Organizers

CWECS-2011 Workshop Co-chairs
Fang-Yie Leu, Tunghai University, Taiwan
Chu-Hsing Lin, Tunghai University, Taiwan

CWECS-2011 Workshop PC Co-chairs
Aniello Castiglione, University of Salerno, Italy
Ilsun You, Korean Bible University, Korea
