

Keynote Talk

The ARPA Dream Revisited

Alan Kay

Viewpoints Research Institute, Hewlett-Packard Company, USA

From early 50's to mid 60's, some of the fundamental thoughts, ideas and theories were invented and led to the essential results of the **ARPA** project and today's computing environment. In this talk, I briefly introduce some of the important topics in what people were trying to do and what they mean for realizing a real personal computing environment.
