Preface

The papers in this volume were accepted for presentation at the 16th Annual IEEE Conference on Computational Complexity held from June 18-21, 2001 at CTI DePaul University, Chicago, Illinois. The conference was sponsored by the IEEE Computer Society, in cooperation with the ACM Special Interest Group on Algorithms and Computation Theory (SIGACT) and the European Association for Theoretical Computer Science (EATCS), with generous support from the School of Computer Science, Telecommunications and Information Systems at DePaul University.

The call for papers sought original papers in all areas of computational complexity. The program committee selected 30 papers from 60 submitted papers.

The program committee thanks Steve Tate and the SIGACT Electronic Publishing Board for the use and help of the electronic submissions server, Peter Shor and Mihalis Yannakakis for the electronic conference meeting software and Frances Titsworth of the IEEE for editing this volume.

The committee would also like to thank the following people for their help in reviewing the papers: Eric Allender, Klaus Ambos-Spies, V. Arvind, Paul Beame, Richard Beigel, Michael Ben-Or, Eli Ben-Sasson, Markus Blaeser, Allan Borodin, Harry Buhrmann, Ivan Damgaard, Lance Fortnow, William Gasarch, Ulrich Hertrampf, Valentine Kabanets, Johannes Koebler, S. Ravi Kumar, Wolfgang Lindner, Alexis Maciel, Elvira Mayordomo, Dieter van Melkebeek, Michael Mitzenmacher, Michele Mosca, Ran Raz, Ken Regan, Alex Russell, Uwe Schoening, Amir Shpilka, Martin Strauss, Gabor Tardos, Thomas Thierauf, Jacobo Toran, Iannis Tourlakis, Alasdair Urquhart, Paul Vitanyi, Osamu Watanabe, and Ronald de Wolf.

Welcome to Complexity 2001!
