2017 IEEE/ACM 10th International Workshop on Cooperative and Human Aspects of Software Engineering

(CHASE 2017)

Table of Contents

Message from CHASE 2017 Workshop Chairs ............................................................... viii
CHASE 2017 Program Committee .................................................................................... ix
CHASE 2017 Reviewers ................................................................................................... x
ICSE 2017 Sponsors and Benefactors ........................................................................... xi

CHASE 2017 Workshop Summary .................................................................................... 1

Daniel Graziotin, Rafael Prikladnicki, Meira Levy, Anita Sarma, and David Socha
— University of Stuttgart; PUCRS; Shenkar College of Engineering and Design;
Oregon State University; University of Washington Bothell

Long Papers

Cross-Disciplinary Perspectives on Collaborations with Software Engineers .................. 2
Paul Luo Li, Andrew J. Ko, and Andrew Begel
— Microsoft Research; University of Washington;

Tailoring Gamification to Requirements Elicitation: A Stakeholder-Centric
Motivation Concept ....................................................................................................... 9
Martina Z. Huber Kolpondinos and Martin Glinz
— University of Zurich; Swiss Federal Laboratories for Materials Science and Technology

Beyond Dashboards: On the Many Facets of Metrics and Feedback in Agile Organizations ................................................................. 16
Olivier Liechti, Jacques Pasquier, and Rodney Reis
— University of Applied Sciences and Arts-Western Switzerland;
Fribourg University; Avalia Systems

Christoph Becker, Dawn Walker, and Curtis McCord
— University of Toronto
Software Development Contracts: The Impact of the Provider’s Risk of Financial Loss on Project Success ................................................................. 30
Magne Jøergensen
— Simula Research Laboratory

Using Gamification to Orient and Motivate Students to Contribute to OSS Projects ......................................................... 36
Guilherme C. Diniz, Marco A. Graciotto Silva, Marco A. Gerosa, and Igor Steinmacher
— Federal University of Technology-Paraná; Northern Arizona University

The Tech-Talk Balance: What Technical Interviewers Expect from Technical Candidates ................................................................. 43
Denae Ford, Titus Barik, Leslie Rand-Pickett, and Chris Parnin
— North Carolina State University

ID3P: Iterative Data-Driven Development of Persona Based on Quantitative Evaluation and Revision ................................................................. 49
Yasuhiro Watanabe, Hironori Washizaki, Kiyoshi Honda, Yuki Noyori, Yoshiki Fukazawa, Aoi Morizuki, Hiroyuki Shibata, Kentaro Ogawa, Mikako Ishigaki, Tsaiyo Shizaki, Teppei Yamaguchi, and Tomoaki Yagi
— Waseda University; Yahoo Japan Corporation

Is It Possible to Disregard Obsolete Requirements? An Initial Experiment on a Potentially New Bias in Software Effort Estimation ......................................................... 56
Lucas Gren, Richard Berntsson Svensson, and Michael Unterkalmsteiner
— Chalmers University of Technology and Gothenburg University; Blekinge Institute of Technology

Short Papers

Towards Effective Teams for the Identification of Code Smells ................................................................. 62
Rafael De Mello, Roberto Oliveira, Leonardo Sousa, and Alessandro García
— Pontifical Catholic University of Rio de Janeiro

Towards Understanding the Relationships between Interdependence and Trust in Software Development: A Qualitative Research ................................................................. 66
Itanauã F. Barbosa, Marcela P. Oliveira, Priscila B.S. Reis, Tancleide C.S. Gomes, and Fabio Q.B. Da Silva
— Universidade Federal de Pernambuco

Team Maturity in Software Engineering Teams: A Work in Progress ................................................................. 70
Diana Valença Pereira, George Marsicano Corrêa, Fabio Q.B. Da Silva, and Danilo Monteiro Ribeiro
— Universidade Federal de Pernambuco; Universidade de Brasília

Inadequate Testing, Time Pressure, and (Over) Confidence: A Tale of Continuous Integration Users ................................................................. 74
Gustavo Pinto, Marcel Reboucas, and Fernando Castor
— Federal Institute of Pará; Universidade Federal de Pernambuco

What Do Developers Want? An Advisor Approach for Developer Priorities ................................................................. 78
Vibhu Sajianaya Sharma, Rohit Mehra, and Vikrant Kaulgud
— Accenture Labs-Bangalore
Characterization of Autonomy and Interdependence in Software Engineering ................................................................. 82
   Itanauã F. Barbosa, Karla M.B. Silva, Marcela P. Oliveira, Priscila B.S. Reis,
   and Fabio Q.B. Da Silva
   — Universidade Federal de Pernambuco

A Fourth Explanation to Brooks’ Law—The Aspect of Group Developmental Psychology .............................. 86
   Lucas Gren
   — Chalmers University of Technology and Gothenburg University

Notes

A Preliminary Evaluation of a Gamification Framework to Jump Start Collaboration Behavior Change ................................................................. 90
   Flavio Steffens, Sabrina Marczak, Fernando Figueira Filho, Christoph Treude,
   and Cleidson R.B. De Souza
   — Pontifical Catholic University of Rio Grande do Sul;
   Universidade Federal do Rio Grande do Norte; University of Adelaide;
   Instituto Tecnológico Vale; Federal University of Pará

Motivation for Self-Assignment: Factors Agile Software Developers Consider ............................................. 92
   Zainab Masood, Rashina Hoda, and Kelly Blincoe
   — University of Auckland

Author Index .............................................................................................................................................. 94
