Proceedings of the Eighth Annual ChinaGrid Conference

EDTS: An Extensible Data Transmission Service for the Internet ................................................................. 3
   Rui Fang, Jinlei Jiang, Hui Peng, and Guangwen Yang

Latency-Balanced Optimization of MPI Collective Communication
across Multi-clusters ................................................................................................................................. 9
   Xiaohui Wei, Jun Cheng, and Hongliang Li

Energy Consumption Characterization of Heterogeneous Servers ............................................................ 14
   Xiao Zhang, Jianjun Lu, and Xiao Qin

A Multiple Attribute Decision and Bidding Based Cloud Resource Dynamic Allocation Method ................................................................. 22
   Xue-Yi Wang, Xing-Wei Wang, and Min Huang

Feasibility of Deploying Biometric Encryption in Mobile Cloud Computing .................................................. 28
   Kao Zhao, Hai Jin, Deqing Zou, Gang Chen, and Weiqi Dai

A Cloud Resource Allocation Scheme Based on Microeconomics and Wind Driven Optimization ................................................................. 34
   Jiajia Sun, Xingwei Wang, Min Huang, and Chengxi Gao

Reliability Prediction Model for SOA Using Hidden Markov Model ............................................................ 40
   Waseem Ahmed and Yong Wei Wu

Energy-Efficient Delay-Constrained Routing for Sensor Networks with Low Duty Cycles ................................................................. 46
   Lina Li, Xiaohui Wei, Hongliang Li, and Guodong Sun

An Efficient Public Batch Auditing Protocol for Data Security in Multi-cloud Storage .................................. 51
   He Kai, Huang Chuanhe, Wang Jinhai, Zhou Hao, Chen Xi, Lu Yilong,
   Zhang Lianzhen, and Wang Bin

Online Redundancy Mining in Enterprise WLAN Traffic ............................................................................. 57
   Zhiqi Bian, Hongzi Zhu, Guangtao Xue, and Minglu Li
Efficient Multi-dimensional Spatial RkNN Query Processing with MapReduce ..................................................63
  Changqing Ji, Hongbin Hu, Yujie Xu, Yuanyuan Li, and Wenyu Qu

Considering Data Skew in Multiway Joins for MapReduce ...............................................................................69
  Lei Wu, Changchun Zhang, Haiyan Meng, and Jing Li

Alovera: A Fast Stream Processing System for Large-Scale Data .................................................................74
  Zhen'an Zhang, Dongjie Zhang, Xiaopeng Yu, Jing Wang, Chunjiang He, Pingpeng Yuan, and Hai Jin

A New Schedule Strategy for Heterogenous Workload-aware in Hadoop .....................................................80
  Zhe Wang, Zhengdong Zhu, Pengfei Zheng, Qiang Liu, and Xiaoshe Dong

A Delay Scheduling Algorithm Based on History Time in Heterogeneous Environments .....................................86
  Bin Ye, Xiaoshe Dong, Pengfei Zheng, Zhengdong Zhu, Qiang Liu, and Zhe Wang

PIFCard: A High Performance Flash Card Matching the Parallelism and Latency of NAND Flash with Those of PCI-E Interface ........................................................................................................92
  Yang Ou, Nong Xiao, Fang Liu, and Zhiguang Chen

An Incremental Crawler for Web Video Based on Content Longevity ..............................................................98
  Feng Lu, Zaiyang Tang, Xiaofei Liao, and Hai Jin

A Conceptual Prototype for Digital Media Cloud ..............................................................................................103
  Wenting Tan, Xiaoshi Wang, Yu Zhang, Bin Zhou, and Xiaowu Chen

A Hybrid Remapping Scheme for Model Coupling: Fill the Gap between Scheme Design and Application .........................................................................................................................109
  Shunqiang Song, Xiaoge Wang, Yongwei Wu, and Lanning Wang

Enabling Data Recommendation in Scientific Workflow Based on Provenance ..............................................117
  Xing Huang, Tun Lu, Xianghua Ding, and Ning Gu

Author Index ..........................................................................................................................................................123
