Proceedings

The Proceedings of the Third International Symposium on Cooperative Database Systems for Advanced Applications

CODAS 2001

Beijing, China
April 23-24, 2001

Edited by
Hongjun Lu
Stefano Spaccapietra
Yahiko Kambayashi
Shan Wang

Sponsored by
National Natural Science Foundation of China
China ComputerWorld
Kyoto University, Japan
K. C. Wong Education Foundation, Hong Kong

Co-Organized with
Renmin University of China and
Database Society of China Computer Federation (CCF-DBS)

Los Alamitos, California
Washington Brussels Tokyo
# Table of Contents

**CODAS 2001**

## Preface
Preface.............................................................................................................................................. vii

## Conference Chairs’ Message
Conference Chairs’ Message........................................................................................................ viii

## Conference Organization
Conference Organization............................................................................................................. ix

## Session 1: Applications

B. Wu and K. Dube

## Session 2: Cooperation and Coordination

An Automated Integration Approach for Semi-Structured and Structured Data ............................. 12  
S.-J. Lin and Y.-K. Ng

Asynchronous Monitoring of Events for Distributed Cooperative Environments .......................... 22  
S. Chakravarthy and H. Liao

Computing Repairs for Inconsistent Databases............................................................................ 30  
S. Greco and E. Zumpano

## Session 3: XML and Object-Relational

Object-Oriented Representation for XML Data.............................................................................. 40  
J. Hou, Y. Zhang, and Y. Kambayashi

Enriched Relationship Processing in Object-Relational Database Management Systems................. 50  
N. Zhang, N. Ritter, and T. Härder

Realizing Temporal XML Repositories Using Temporal Relational Databases (Poster) .................... 60  
T. Amagasa, M. Yoshikawa, and S. Uemura

To a Man with an ORDBMS Everything Looks Like a Row in a Table (Poster).............................. 65  
W. Mahnke and H.-P. Steiert

## Session 4: DW, DM and DL

Range Sum Queries in Dynamic OLAP Data Cubes........................................................................ 74  
H.-G. Li, T. Ling, S. Lee, and Z. Loh

Effective and Efficient Boundary-based Clustering for Three-Dimensional Geoinformation Studies......................................................................................................................... 82  
I. Lee and V. Estivill-Castro

The Personalized Index Service System in Digital Library.......................................................... 92  
J. Ou, S. Lin, and J. Li

## Session 5: Agents

An Intelligent Agent for Web Advertisements................................................................................. 102  
V. Ng and K.-H. Mok
Incorporating Adaptive Interaction Property in Cooperative Agent for Emergent Process Management
A. Lin and J. Debenham ......................................................... 110

Cooperative Content Analysis Agents for Online Multimedia Indexing and Filtering (Poster)
W. Zhou, A. Vellaikal, and S. Dao ........................................ 118

Session 6: Workflows

Flexible Data Management and Execution to Support Cooperative Workflow:
The COO Approach ............................................................... 124
D. Grigori, F. Charoy, and C. Godart

Supporting Voluntary Disconnection in WFMSs .................. 132
S. Lee, D. Han, and D. Lee

Customized Atomicity Specification for Transactional Workflows ........................................ 140
W. Derks, J. Dehnert, P. Grefen, and W. Jonker

Session 7: Enterprise Systems

Enterprise Model as a Basis of Administration on Role-Based Access Control ......................... 150
S. Oh and S. Park

Constraints for Information Cooperation in Virtual Enterprise Systems .................................. 159
X. Yang, G. Yu, G. Wang, D. Wang, and B. Song

Improving Performance of the K-Nearest Neighbor Classifier by Tolerant Rough Sets (Poster) .... 167
Y. Bao, X. Du, and N. Ishii

Set-Based Access Conflicts Analysis of Concurrent Workflow Definition (Poster) .................. 172
M. Lee, D. Han, and J. Shim

Session 8: DBMS Systems

Parallel Join Algorithms Based on Parallel $B^+$-trees¹ ........................................ 178
J. Li, W. Sun, and Y. Li

Multi-Weighted Tree Based Query Optimization Method for Parallel Relational
Database Systems ............................................................... 186
J. Li, Z. Cai, and S. Chen

Concealing a Secret Image Using the Breadth First Traversal Linear Quadtree Structure .......... 194
Y.-K. Chan and C.-C. Chang

Author Index ........................................................................... 200
