Closing Panel Session

The Trends of Software Technology and Applications

Chair
Stephen S. Yau, Arizona State University, USA

Panelists
Carl K. Chang, University of Illinois at Chicago, USA
Kane Kim, University of California - Irvine, USA
Annie Combelles, Objectif Technologie, France
Iwao Toda, Fujitsu Limited, Japan
J.C. Yoon, Samsung Data Systems, Korea

At the conclusion of the 20th anniversary of COMPSAC, the panelists will discuss the future trends of software technology and applications based on their observations of the recent development of software technology and applications. The main focus will be on what will be the future trends of software technology, whether the new software technology can keep pace with the growing user and consumer expectations, and how the new software technology will stimulate future applications in various environments.
