IWSC 2011 Panel Session

Future Directions of Software Cybernetics

Monday, July 18, 2011
3:30 p.m. to 5:00 p.m

Chair: Stephen S. Yau, Arizona State University, USA
Panelists: Kai-Yuan Cai, Beijing University of Aeronautics and Astronautics, China
Ron S. Kenett, KPA Ltd., Israel
Tugkan Tuglular, Izmir Institute of Technology, Turkey
Hong Zhu, Oxford Brookes University, UK

There has been substantial progress in software cybernetics, and at this workshop many new results will be presented. In this panel, the focus will be on identifying research directions which may achieve major breakthrough in software cybernetics.

Each panelist will present his point of view on this topic and then we open the discussion to the floor.
