Welcome Message from the General Chairs

Welcome to the 2008 International Symposium on Computer Science and its Applications (CSA 2008). On behalf of the international organizing committee and program committee, we thank you for your participation, and we hope that you will enjoy the presentations and social programs offered in this symposium.

CSA 2008 will be the most comprehensive symposium focused on the various aspects of advances in computer science. The CSA 2008 will provide an opportunity for academic and industry professionals to discuss the latest issues and progress in the area of computer science and its applications (CSA). In addition, the symposium is publishing high-quality papers, which are closely related to the various theories and practical applications in CSA. Furthermore, we expect that the symposium and its publications will be a trigger for further related research and technology improvements in this important subject.

The success of CSA 2008 would not have been possible without the huge support from our sponsors and the work of our chairs, and these are listed in the following pages. Especially, we would like to thank the Program Co-Chairs, Sang-Soo Yeo and Jiankun Hu, for their hard work. And we are grateful to the International Advisory Board members, Daqing Zhang, Andrew Kusiak, Laurence T. Yang, Hamid R. Arabnia, Hsiao-Hwa Chen, Kyo-il Chung, M. Atiquzzaman, Ramamohanarao Kotagiri, and Xinghuo Yu, for their great support. Moreover, we thank the symposium organizer, Science & Engineering Research Support Center (SERSC), and we are grateful to the assistance provided by University of Tasmania.

Looking forward to seeing you at CSA 2008!

Tai-hoon Kim, Hannam University, Korea
Jong Hyuk Park, Kyungnam University, Korea
David Taniar, Monash University, Australia
