Message from the Program Chairs of CSE/I-SPAN/IUCC 2011

On behalf of the technical program committee, we would like to warmly welcome you to Dalian for the 14th IEEE International Conference on Computational Science and Engineering (CSE 2011), the 11th International Symposium on Pervasive Systems, Algorithms, and Networks (I-SPAN 2011), and the 10th IEEE International Conference on Ubiquitous Computing and Communications (IUCC 2011).

It is our great honor to introduce the programs for these three conferences. Thanks to the Program Committee's hard work, we are able to finalize the technical program. In the selection process, each paper was assigned to at least 3 PC members as reviewers. The authors and those PC members from the same institution were separated in the reviewing process to avoid conflicts of interests. We have totally received 334 submissions for CSE 2011, I-SPAN 2011 and IUCC 2011 from all over the world. The large number of submissions indicates continued excitement in the field worldwide. The manuscripts have been ranked according to their original contribution, quality, presentation and relevance to the themes of the conference. In the end, 81(24.25%) papers were accepted for presentation and inclusion in these three conferences.

Many individuals contributed to the success of these three conferences. We would like to take this opportunity to thank all the authors for their submissions. As the co-chairs of the Program Committee, we would like to thank all the Program Committee members for their dedication and expert reviews to ensure the high quality of the technical program. More importantly the general Co-Chairs of these three conferences provided superb guidance to us in preparing such a strong technical program. All of them deserve huge credits for the success of CSE 2011, I-SPAN and IUCC 2011.

Many thanks to the invited keynote speakers, Professor Zhaohui Wu, Professor Albert Y. Zomaya, Professor Jean-Luc Gaudiot, and Professor Jianhua Ma. Their keynote speeches will greatly benefit the audiences. Last but not the least, we would like to thank Junfeng Xu and Yan Liu for their help with submission system, and the local arrangement committee members from Dalian University of Technology and Dalian Maritime University.

We expect you will find the technical program very stimulating, informative and inspiring. We hope you will also take time to experience the beauty and culture of Dalian.

Program Chairs of CSE 2011
Weisong Shi, Wayne State University, USA
Aki Nakao, University of Tokyo, Japan
Yanming Shen, Dalian University of Technology, China

Program Chairs of I-SPAN 2011
Keqiu Li, Dalian University of Technology, China
Francis Lau, The University of Hong Kong, China

Program Chairs of IUCC 2011
Ahmed Y. Al-Dubai, Edinburgh Napier University, UK
Xiaolong Jin, University of Bradford, UK
Wenyu Qu, Dalian Maritime University, China
