ADAMUS Program

5th International workshop on Adaptive and DependAble Mobile Ubiquitous Systems (ADAMUS)

Monday – June 27th, 2011

Introduction.................................................................................................................................................. 278
Domenico Cotroneo (Universita’ degli Studi di Napoli Federico II, Italy) Vincenzo De Florio, (University of Antwerp, Belgium)

Session 1:

Adaptive Collaborative Sensing using Mobile Phones and Stationary Sensors ............................................. 280
Edith C.-H. Ngai (Uppsala University, Sweden), and Junjie Xiong (Chinese University of Hong Kong, China)

Enabling On-Line Dependability Assessment of Android Smart Phones ......................................................... 286
Marcello Cinque (Universita’ degli Studi di Napoli Federico II, Italy)

Session 2:

A Novel Design of Node-disjoint Multi-path QoS Routing in Multi-hop Ad Hoc Networks................................. 292
Szu-Lin Su, Yi-Wen Su (National Cheng Kung University, Taiwan), Chien-Sheng Chen (Tainan University of Technology, Taiwan), and Wen-Hsiung Liu (Aletheia University, Taiwan)

Privacy Leakage in Two-Party Group Nearest Neighbor Queries ...................................................................... 297
Yan Huang, Cai Chen (University of North Texas, USA)

Closing Panel: Open Issues on Experimental Dependability Evaluation of Mobile Ubiquitous Systems
Moderator: Domenico Cotroneo (Universita’ degli Studi di Napoli Federico II, Italy)
