Contents

Preface
 Foreword ................................................................. iii

Interacting with Customers in Student Projects
Teaching Requirements Engineering with Authentic Stakeholders: Towards a Scalable Course Setting
  Gregor Gabrysiak, Markus Guentert, Regina Hebig, and Holger Giese — HPI, Germany ......................... 1
Towards Production Ready Software in Project Courses with Real Clients
  Bernd Brügge and Michaela Gluchow — TU Munich, Germany ....................................................... 5

Software Environments and Software Systems for Courses
Integrating Open Source Software into Software Engineering Curriculum: Challenges in Selecting Projects
  Swapna S. Gokhale, Thérèse Smith, and Robert McCartney — University of Connecticut, USA ................ 9
Software Development Studio - Bringing Industrial Environment to a Classroom
  Sylwia Kopczyńska, Jerzy Nawrocki, and Miroslaw Ochodek — Poznan University of Technology, Poland ........ 13
edubase Cloud: Cloud Platform for Cloud Education
  Shigetoshi Yokoyama, Nobukazu Yoshioka, and Takahiro Shida — National Institute of Informatics, Japan; NTT DATA Intellilink, Japan ................................................................. 17

Building a Curriculum: Interaction between Courses
An Experience Report on Cross-Semester Student Critique and Action in an Integrated Software Engineering, Service Learning Course
  Richard Burns, Terry Harvey, and Lori Pollock — University of Delaware, USA ................................. 21
Teaching Software Engineering with Projects
  Jochen Ludewig and Ivan Bogicevic — University of Stuttgart, Germany .............................................. 25

Experiences with Project-Based Learning
Teaching Real-World Software Engineering through a Capstone Project Course with Industrial Customers
  Jari Vanhanen, Timo O. A. Lehtinen, and Casper Lassenius — Aalto University, Finland ......................... 29
Synergizing Industrial Needs and Academic Research for Better Software Education
  Sigrid Eldh and Sasikumar Punnekkat — Ericsson, Sweden; Karlstad University, Sweden; Mälardalen University, Sweden ................................................................. 33
Teamwork, Coordination and Customer Relationship Management Skills: As Important as Technical Skills in Preparing Our SE Graduates
  Daniela Damian and Arber Borici — University of Victoria, Canada .................................................... 37
