Preface
EECS 2017

This volume comprises the proceedings of the European Conference on Electrical Engineering & Computer Science (EECS '17). The conference provided a platform for researchers, engineers, academicians as well as industrial professionals to discuss research results and development activities in Circuits, Systems, Electronics, Control, Robotics, Information Systems, Internet and Internet Computing, Intelligent Agents, Mobile Computing, Hardware/Software Design, Computer/Communications Integration, Education, etc as well as their applications in various sciences and in industry, with participants from all over the world. The Conference was held November 17-19, 2017 in Bern, Switzerland. All chapters are self-contained and peer reviewed.

Conferences such as this can only succeed as a team effort, so the Editors would like to thank the International Scientific Committee and the Reviewers for their excellent work in reviewing the papers as well as their invaluable input and advice.

Nikos Bardis, Hellenic Military Academy, Greece
