Message from the Workshop Chairs
SeDiS 2013

It is our great pleasure to welcome you in Xi’an, China for the 3rd International Workshop on the Service for Large Scale Distributed Systems (SeDiS 2013). It is important status for our workshop to be organized here with a valuable conference having together many specialists and experts in computer science, especially in Service Oriented Computing.

The SeDiS Workshop is dedicated to the dissemination and evaluation of original contributions to the architectures, techniques, protocols, components, orchestration, choreography and development related to the Service for Large Scale Distributed Systems (LSDS) with special emphasis on Cloud, Grid, P2P and Web-based systems. The purpose of the workshop is to provide an open forum for researchers from academia and industry to present, discuss, and exchange ideas, results, and expertise in the area of electronic services for large scale distributed systems. The workshop also aims at stimulating synergies between Cloud, Grid, P2P, Web-based and Sensor Network System developer communities.

This workshop want provide an open forum for researchers from academia and other research community to present, discusses, and exchange related ideas, results, and experiences in this area. The workshop also aims at stimulating synergies between new approaches, Service Oriented Computing for LSDS considering new and traditional models in this domain.

The workshop co-chairs wish to thank the referees who have carefully reviewed the papers and gave useful suggestions and feedback to the authors. We hope that the readers will find the papers accepted in this workshop useful in their research.

We would like to thank all the authors for submitting their research works to the workshop as well as to the authors of accepted papers for their participation and presentation of the papers in the workshop. Finally, we would like to thank Dr. Fatos Xhafa, Technical University of Catalonia, Barcelona, Spain and Prof. Leonard Barolli, Fukuoka Institute of Technology (FIT), Japan for the great opportunity to organize this workshop.

We look forward to meet you all again in the 2014 edition of the workshop!

Florin Pop, University Politehnica of Bucharest, Romania
Valentin Cristea, University Politehnica of Bucharest, Romania
Nik Bessis, University of Derby, UK
