Preface

eL&mL 2010

The second edition of the International Conference on Mobile, Hybrid, and On-Line Learning (eL&mL 2010), held in St. Maarten, Netherlands Antilles, 10-16 February 2010, focused on the latest trends in e-learning and also on the latest IT technology alternatives that are poised to become mainstream strategies in the near future and will influence the e-learning environment.

eLearning refers to on-line learning delivered over the World Wide Web via the public Internet or the private, corporate intranet. The goal of the eL&mL 2010 conference was to provide an overview of technologies, approaches, and trends that are happening right now. The constraints of e-learning are diminishing and options are increasing as the Web becomes increasingly easy to use and the technology becomes better and less expensive.

eL&mL 2010 provided a forum where researchers were able to present recent research results and new research problems and directions related to them. The topics covered aspects related to tools and platforms, on-line learning, mobile learning, and hybrid learning.

We take this opportunity to thank all the members of the eL&mL 2010 Technical Program Committee as well as the numerous reviewers. The creation of such a broad and high-quality conference program would not have been possible without their involvement. We also kindly thank all the authors who dedicated much of their time and efforts to contribute to the eL&mL 2010. We truly believe that, thanks to all these efforts, the final conference program consists of top quality contributions.

This event could also not have been a reality without the support of many individuals, organizations, and sponsors. We are grateful to the members of the eL&mL 2010 Organizing Committee for their help in handling the logistics and for their work to make this professional meeting a success.

We hope that eL&mL 2010 was a successful international forum for the exchange of ideas and results between academia and industry and for the promotion of progress in eLearning research.

The beautiful places of St. Maarten surely provided a pleasant environment during the conference and we hope you had a chance to visit the surroundings.
eL&mL 2010 Chairs
Petre Dini, Concordia University, Canada
Adam M. Gadomski, ENEA, Italy
Bernd Krämer, FernUniversität in Hagen, Germany
Cynthia Y. Lester, Tuskegee University, USA
Herwig Mannaert, University of Antwerp, Belgium
Masaya Okada, Shizuoka University, Japan
