Message from the EUC 2010 Workshop/Symposium Chairs

Welcome to the Workshops and Symposia held in conjunction with the 8th IEEE/IFIP International Conference on Embedded and Ubiquitous Computing (EUC 2010), December 11-13, 2010, Hong Kong SAR, China.

This year’s program includes one symposium and five workshops that cover a wide range of hot research topics addressing issues at the frontiers of research on embedded and ubiquitous computing:

The 6th IEEE/IFIP International Symposium on Trusted Computing and Communications (TrustCom 2010)
The International Workshop on UnderWater Acoustic Sensor Network 2010 (UUWSN 2010)
The International Workshop on Constructing Software for Internet of Things (CSIOT 2010)
The 3rd International Workshop on Sensor Networks and Ambient Intelligence (SeNAmI 2010)
The Third International Workshop on Wireless Network Algorithm and Theory(WiNA 2010)
The International Workshop on Challenged Network Architecture (ICNA 10)

The workshops/symposium provide a focused treatment of specific topics in the embedded and ubiquitous computing field. We believe these workshops and symposia are an excellent complement to the overall scope of the main conference, and give additional value and interest to EUC-10. We hope that all selected papers will have significant impact for future research in the respective research areas.

The workshops/symposium were selected by considering quality of the proposal, adequacy to the scope of EUC 2010 and CV of the organizers. We sincerely appreciate the hard work of the workshop organizers in designing the call for papers, assembling the program committee, managing the peer-review process for the selection of papers, and planning the workshop program. Thanks are extended to the workshop program committees, external reviewers, session chairs, contributing authors and attendees. We also wish to acknowledge the support and guidance from our links with the conference organization, especially to the conference general chair Prof. Jianmong Cao, the steering chairs Prof. Laurence T. Yang and Prof. Minyi Guo. It has been a pleasure to work with them together.

Finally, we hope that you find the symposium and workshops interesting and stimulating. Also enjoy EUC 2010 and the nice city of Hong Kong.

Andy Xiaolin Li, University of Florida, USA
Bin Xiao, Hong Kong Polytechnic University, China
Gang Pan, Zhejiang University, China
Workshop/Symposium Chairs of EUC 2010
