Message from Workshop Chairs

Welcome to the 2008 Japan-China Joint Workshop on Frontier of Computer Science and Technology (FCST 2008) held in Nagasaki, Japan, 27-28 Dec. 2008. This workshop is sponsored by the University of Aizu and the Huazhong University of Science and Technology, the sister universities between Japan and China.

The FCST-08 comes out of the successful holding of FCST 2006 (Aizu-Wakamatsu, Japan, 17-18 November, 2006) and FCST 2007 (Wuhan, Japan, 1-3 November 2007). The purpose of this workshop is to provide an open forum for computer scientists and researchers to present, discuss and exchange state-of-the-art ideas, results and experiences in all areas of computer science and technology.

A very large number of papers submitted from both Japan and China and we finally selected 31 papers to be published in the proceedings for oral presentation at the workshop. The FCST 2008 workshop includes technical papers describing significant research contributions to design and application of virtualization technologies, computer networks, semantic computing, storage system, computer security, multimedia, and software engineering.

The program for this workshop is the result of hard and excellent work of many people-including those who reviewed the papers and participated in the program committee. We would like to express our sincere appreciation to all authors for their valuable contributions and to all program committee members and external reviewers for their cooperation in completing the workshop program.

General Co-chairs
Minyi Guo, University of Aizu, Japan
Hai Jin, Huazhong University of Science and Technology, China

Program Co-chairs
Qiangfu Zhao, University of Aizu, Japan
Xiaofei Liao, Huazhong University of Science and Technology, China
