Preface .............................................................................................................................................. xix
List of Chairs and Program Committee Members .............................................................................. xx

Track 1. Technologies for Open Learning and Education (i-OPENLearn@ICALT2018)

Gap between MOOC Designers' and MOOC Learners' Perspectives on Interaction and Experiences in MOOCs: Findings from the Global MOOC Quality Survey ........................................................................................................... 1
Christian M. Stracke (Open University of the Netherlands, Heerlen; Korean National Open University, Seoul; East China Normal University, Shanghai), Esther Tan (Open University of the Netherlands, Heerlen), António Moreira Texeira (Universidade Aberta des Lisboa, Lisbon), Maria do Carmo Texeira Pinto (Universidade Aberta des Lisboa, Lisbon), Bill Vassiliadis (Hellenic Open University, Patras), Achilles Kameas (Hellenic Open University, Patras), and Cleo Sgouropoulou (University of West Attica, Athens)

Open Virtual Reality Project to Improve Students' Skills ........................................................................ 6
Diana Andone (Politehnica University Timisoara), Silviu Vert (Politehnica University Timisoara), Mark Frydenberg (Bentley University), and Radu Vasiu (Universitatea Politehnica Timisoara)

Lecture Instrumentation Based on Synchronous Speech Transcription .................................................. 11
Vincent Bettenfeld (LIUM-IEIAH), Christophe Choquet (LIUM-IEIAH), and Claudine Piau-Toffolon (LIUM-IEIAH)

What do We Know about Learner Assessment in Technology-Rich Environments? A Systematic Review of Systematic Reviews ....................................................................................................................... 16
Katerina Mangaroska (Norwegian University of Science and Technology), Rabail Tahir (Norwegian University of Science and Technology), Madeleine Lorås (Norwegian University of Science and Technology), and Anna Mavroudi (Norwegian University of Science and Technology, KTH Royal Institute of Technology)

How Can Advanced Technologies Support the Contemporary Learning Approach? ............................ 21
Margus Pedaste (Institute of Education, University of Tartu) and Äli Leijen (Institute of Education, University of Tartu)

Integrating Open Education Concepts in Blended Learning with MOOCs ........................................... 24
Diana Andone (Politehnica University Timisoara) and Vlad Mihaescu (Politehnica University Timisoara)
A Bibliometric Analysis of Six Years of Research on Flipped Classroom ................................................................. 27
Kaushal Kumar Bhagat (Beijing Normal University) and J. Michael Spector (University of North Texas)

Enhancing Students Learning Skills Through Integrated Course Project Design Model (ICPDM) ......................... 30
Vijayalakshmi M (K.L.E. Technological University, India), Mahesh S. Patil (K.L.E. Technological University, India), Aruna S. Nayak (K.L.E. Technological University, India), Vidya S. Handur (K.L.E. Technological University, India), and G.S. Hanchinamani (K.L.E. Technological University, India)

Modeling Exploratory Search as a Knowledge-Intensive Process ............................................................... 34
Marcelo Tibau (Federal University of the State of Rio de Janeiro), Sean W. M. Siqueira (Federal University of the State of Rio de Janeiro), Bernardo Pereira Nunes (Federal University of the State of Rio de Janeiro / Pontifical Catholic University of Rio de Janeiro), Maria Bortoluzzi (University of Udine), and Ivana Marenzi (L3S Research Center, Leibniz University of Hannover)

Crowdsourced Information Technology Content for Education and Employment ......................................... 39
Kannan Moudgalya (IIT Bombay)

An Evaluation of Different Types of Blended Learning Activities in Higher Education ........................................ 42
Thushani A. Weerasinghe (University of Colombo School of Computing)

Impact of Experiential Learning on Students' Success in Undergraduate Engineering ........................................... 46
Padmashree Desai (B.V.B.C.E.T), Achyut Bhandiwad, and Ashok S. Shettar

Auto-Grading for 3D Modeling Assignments in MOOCs ................................................................. 51
Swapneel Mehta (D. J. Sanghvi College of Engineering), Chirag Raman (Carnegie Mellon University), Nitin Ayer (Indian Institute of Technology, Bombay), and Sameer Sahasrabudhe (Indian Institute of Technology, Bombay)

Deriving Semantics of Learning Mediation ......................................................................................................... 54
Aparna Lalingkar (Gooru Labs, IIT Bangalore, India), Srinath Srinivasa (Gooru Labs, IIT Bangalore, India), and Prasad Ram (Gooru Inc., Redwood, USA)

Efficacy of Spoken Tutorial Methodology for Education in Ekal Settings ...................................................... 56
Anurag Kumar (Ekal), Sohinee Ganguly (IIT Bombay), Kannan Moudgalya (IIT Bombay), and N.G. Shah (IIT Bombay)

Track 2. Adaptive and Personalised Technology-Enhanced Learning (APTel@ICALT2018)

Personalized, Teacher-Driven in-Action Data Collection: Technology Design Principles .................................. 58
Merike Saar (Tallinn University), Luis P. Prieto (Tallinn University), Maria Jesús Rodríguez-Triana (Tallinn University), and Marge Kusmin (Tallinn University)
Recommended Learning Routes for Heritage Education .......................................................... 63
      Raynel Alfonso Mendoza Garrido (Fundacion Universitaria Tecnologico Comfenalco), Silvia Baldiris Navarro (Fundacion Universitaria Tecnologico Comfenalco), Laura Martinez Garcia (Fundacion Universitaria Tecnologico Comfenalco), Juan Jose Puello Beltran (Fundacion Universitaria Tecnologico Comfenalco), and Ramon Fabregat Gesa (Universitat de Girona)

Performance Categorization for Personalized Learning in Vocational Training Simulators ...................... 66
      Aswathi P (AMMACHI Labs, Amrita Vishwa Vidyapeetham, Amritapuri, India), Balu M. Menon (Ammachi Labs, Amrita Vishwa Vidyapeetham, Amrita University, Kollam), and Bhavani R. Rao (Ammachi Labs, Amrita Vishwa Vidyapeetham, Amrita University, Kollam)

A Free-Choice Social Learning Network for Computational Thinking .............................................. 69
      Hasan Jamil (University of Idaho, USA)

An Adaptive E-Learning Environment Architecture Based on Agents and Artifacts Metamodel ................ 72
      Birol Ciloglugil (Ege University, Turkey) and Mustafa Murat Inceoglu (Ege University, Turkey)

Pedagogical Recommendation to Improve the Quality of Writing: A Case Study In a Public School ............ 75
      Danilo Abreu (Federal University of Campina Grande), Ig Bittencourt (Federal University of Alagoas), Ranilson Paiva (Federal University of Alagoas), and Diego Dermeval (Federal University of Alagoas)

Towards a Dynamic Help System: Support of Learners During Programming Tasks Based Upon Historical Eye-Tracking Data .............................................................. 77
      Fabian Deitelhoff (University of Applied Sciences and Arts Dortmund) and Andreas Harrer (University of Applied Sciences and Arts Dortmund)

Track 3. Wireless, Mobile, Pervasive and Ubiquitous Technologies for Learning (WMUTE@ICALT2018)

An Empirical Study on Factors Influencing Students’ Intention on M-Learning in Middle School of China .......... 79
      Yajuan Liu (Central China Normal University), Jingyang Rao (Central China Normal University), Peiwen Liu (Central China Normal University), and Peng Zhou (Central China Normal University)

Digital Literacy and Substance Abuse Awareness Using Tablets in Indigenous Settlements in Kerala ............ 84
      Nisanth M. Pillai (Amrita Vishwa Vidyapeetham), Ashish Mohan (Amrita Vishwa Vidyapeetham), Georg Gutjahr (Amrita Vishwa Vidyapeetham), and Prema Nedungadi (Amrita Vishwa Vidyapeetham)

A Blended Learning Platform to Improve Teaching-Learning Experience ............................................. 87
      Subrata Tikadar (Indian Institute of Technology Guwahati), Samit Bhattacharya (Indian Institute of Technology Guwahati), and Venkatesh Tamarapalli (Indian Institute of Technology Guwahati)

A Blockchain Based Decentralized Platform for Ubiquitous Learning Environment .............................. 90
      Rawia Bdiwi (University of Paris 8, LIASD research Lab), Cyril de Runz (CReSTIC), Sami Faiz (LTSIRS Laboratory), and Arab Ali Cherif (University of Paris 8, LIASD research Lab)

vii
BeaconNet: A Beacon-Based Smartphone Ad-Hoc Network for Resource-Constrained Classrooms …………… 93
Viraj Kumar (Indian Institute of Science), Aditya Abraham Philip (Microsoft Research India), Sarah Shekeran (PES Institute of Technology), Pranav Singhaninia (PES Institute of Technology), and Ram P. Rustagi (Kammavar Singh School of Technology)

Lihonga — A Microservice-Based Virtual Learning Environment …………………………………………………… 98
Samuel Kapembe (Namibia University of Science and Technology) and José Quenum (Namibia University of Science and Technology)

CVUCAMS: Computer Vision Based Unobtrusive Classroom Attendance Management System ………………… 101
Sujit Kumar Gupta (NITK Surathkal, Manglore, India), Ashwin T S (NITK Surathkal, Manglore, India), and Ram Mohana Reddy Guddeti (NITK Surathkal, Manglore, India)

Track 4. Digital Game and Intelligent Toy Enhanced Learning (DIGITEL@ICALT2018)

ADDEGames: An Assistance Design Tool for Digital Epistemic Games …………………………………………… 103
Lahcen Oubahssi (Le Mans Université, France), Guillaume Loup (Le Mans Université, France), Claudine Piau-Toffolon (Le Mans Université, France), and Oussema Mahdi (Le Mans Université, France)

Fuzzy QFD for Decision Support Model in Evaluating Basic Cause of Children Falling Into Blue Whale Game …………………………………………………………………………………………………………………… 108
Richa Pandey (Birla Institute of Technology) and Tathagata Mukherjee (Birla Institute of Technology)

Does Personality Affect Students’ Perceived Preferences for Game Elements in Gamified Learning Environments? …………………………………………………………………………………………………………………… 111
Mouna Denden (Research Laboratory of Technologies of Information and Communication and Electrical Engineering (LaTICE), Tunis national higher school of engineering (ENSIT), Tunisia), Ahmed Tili (Research Laboratory of Technologies of Information and Communication and Electrical Engineering (LaTICE), Tunis national higher school of engineering (ENSIT), Tunisia), Fathi Essalmi (Research Laboratory of Technologies of Information and Communication and Electrical Engineering (LaTICE), Tunis national higher school of engineering (ENSIT), Tunisia), and Mohamed Jemni (Research Laboratory of Technologies of Information and Communication and Electrical Engineering (LaTICE), Tunis national higher school of engineering (ENSIT), Tunisia)

Characterization of Expertise to Build an Augmented Skill Training System for Construction Industry ……… 116
Deepu Sasi (AMMACHI Labs, Amrita Vishwa Vidyapeetham), Harish Mohan T (AMMACHI Labs, Amrita Vishwa Vidyapeetham), and Rao R. Bhavani (AMMACHI Labs, Amrita Vishwa Vidyapeetham)

Learning Objects in Instructional Serious Game Design ……………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………
Track 5. Computer Supported Collaborative Learning (CSCL@ICALT2018)

Supporting Dyadic Chat Communication with Eye Tracking Based Reading Awareness ........................................ 149
Christian Schlösser (University of Applied Sciences and Arts, Dortmund, Germany), Andreas Harrer (University of Applied Sciences and Arts, Dortmund, Germany), and Andrea Kienle (University of Applied Sciences and Arts, Dortmund, Germany)

Gaze as a Proxy for Cognition and Communication ................................................................................................. 152
Patrick Jermann (École Polytechnique Fédérale de Lausanne) and Kshitij Sharma (Norwegian University of Science and Technology)

Monitoring Collaborative Learning Activities: Exploring the Differential Value of Collaborative Flow Patterns for Learning Analytics .................................................................................................................. 155
María Jesús Rodríguez-Triana (Tallinn University, Tallinn, Estonia; École Polytechnique Fédérale de Lausanne, Lausanne, Switzerland), Luis P. Prieto (Tallinn University, Tallinn, Estonia), Alejandra Martínez-Monés (Universidad de Valladolid, Valladolid, Spain), Juan I. Asensio-Pérez (Universidad de Valladolid, Valladolid, Spain), and Yannis Dimitriadis (Universidad de Valladolid, Valladolid, Spain)
Exploring Hashtags Collaboratively to Facilitate Learning and Knowledge Construction

Gustavo Zurita (Universidad de Chile), Nelson Baloian (Universidad de Chile), and Oscar Jerez (Universidad de Chile)

Measurement and Feedback of Group Activity Using Wearables for Face-to-Face Collaborative Learning

Akshay Mohan (Massachusetts Institute of Technology, Cambridge, Massachusetts), Huaïyi (Cici) Sun (Harvard Business School, Boston, MA), Oren Lederman (Massachusetts Institute of Technology, Cambridge, Massachusetts), Katharina Full (Massachusetts Institute of Technology, Cambridge, Massachusetts), and Alex (Sandy) Pentland (Massachusetts Institute of Technology, Cambridge, Massachusetts)

A Peer Learning Framework for Enhancing Students' Learning Experiences in Online Environments

Songlak Sakulwichitsintu (University of Tasmania), Douglas Colbeck (University of Tasmania), Leonie Ellis (University of Tasmania), and Paul Turner (University of Tasmania)

Track 6. Big Data in Education and Learning Analytics (BDELA@ICALT2018)

An Emotion Oriented Topic Modeling Approach to Discover What Students are Concerned about in Course Forums

Zhi Liu (National Engineering Research Center for E-Learning, Central China Normal University), Tai Wang (National Engineering Research Center for E-Learning, Central China Normal University), Niels Pinkwart (Department of Computer Science, Humboldt University of Berlin), Sannyuya Liu (National Engineering Research Center for E-Learning, Central China Normal University), and Lingyun Kang (National Engineering Research Center for E-Learning, Central China Normal University)

Learning in Communities: How Do Outstanding Users Differ From Other Users?

Thiago Baesso Procaci (UNIRIO), Sean W. M. Siqueira (UNIRIO), and Bernardo Pereira Nunes (PUC-Rio)

The Dynamics of Learning Engagement in Challenge-Based Online Learning

Dirk Ifenthaler (Curtin University), David C. Gibson (Curtin University), and Longwei Zheng (East China Normal University)

University Teachers' and Students' Expectations on Learning Analytics

Katrin Saks (Institute of Education University of Tartu), Margus Pedaste (Institute of Education University of Tartu), and Meeli Rannastu (Institute of Education University of Tartu)

Assessing Learning Analytics Systems Impact by Summative Measures

Rebecca Guillot (Athabasca University), Jeremie Seanosky (Athabasca University), Isabelle Guillot (Athabasca University), David Boulanger (Athabasca University), Claudia Guillot (Athabasca University), Vivekanandan Kumar (Athabasca University), Shawn N. Fraser (Athabasca University), and Kinshuk (University of North Texas)
A Time Series Classification Method for Behaviour-Based Dropout Prediction ............................................ 191
Liu Haiyang (Beijing Jiaotong University Beijing, China), Zhihai Wang
(Beijing Jiaotong University Beijing, China), Phillip Benachour
(School of Computing and Communications Lancaster University,
Lancaster, UK), and Philip Tubman (School of Computing and
Communications, Lancaster University Lancaster, UK)

Measuring Student’s Utilization of Video Resources and Its Effect on Academic Performance ..................... 196
Huan He (Xi’an Jiaotong University, Xi’an, China), Qinghua Zheng
(Xi’an Jiaotong University, Xi’an, China), Bo Dong (Xi’an Jiaotong
University, Xi’an, China), and Hongchao Yu (Xi’an Jiaotong University,
Xi’an, China)

Identifying Student Difficulty in a Digital Learning Environment ................................................................. 199
Steven C. Harris (Athabasca University) and Vivekanandan Kumar
(Athabasca University)

Assessing a Music Student’s Progress ................................................................................................................... 202
Joel Burrows (Athabasca University), Vivekanandan Kumar (Athabasca
University), Kinshuk (University of North Texas), and Ali Dewan
(Athabasca University)

Discovering Student Behavior Patterns from Event Logs: Preliminary Results on a Novel Probabilistic
Latent Variable Model .............................................................................................................................................. 207
Chen Qiao (University of Hong Kong) and Xiao Hu (University of Hong
Kong)

A Review of Multimodal Learning Analytics Architectures ................................................................................. 212
Shashi Kant Shankar (Tallinn University), Luis P. Prieto (Tallinn
University), María Jesús Rodríguez-Triana (Tallinn University), and
Adolfo Ruiz-Calleja (Tallinn University)

Study on the Construction of Learning Map Based on Integrated Supplementary Teaching Materials ........... 215
Bowen Liu (East China Normal University), Ruochen Li (East China Normal University), Yahui Tian (East China Normal University), and
Yonghe Wu (East China Normal University)

A Blueprint for a Blockchain-Based Architecture to Power a Distributed Network of Tamper-Evident
Learning Trace Repositories ................................................................................................................................. 218
Juan Carlos Farah (École Polytechnique Fédérale de Lausanne), Andrii
Vozniuk (École Polytechnique Fédérale de Lausanne), María Jesús
Rodríguez-Triana (École Polytechnique Fédérale de Lausanne, Tallinn
University), and Denis Gillet (École Polytechnique Fédérale de
Lausanne)

Spotting At-risk Dippers in MOOCs ...................................................................................................................... 223
Alya Itani (IMT Atlantique, Lab-STIC, UBL, F-29238 Brest, France),
Laurent Brisson (IMT Atlantique, Lab-STIC, UBL, F-29238 Brest,
France), and Serge Garlatti (IMT Atlantique, Lab-STIC, UBL, F-29238
Brest, France)

Monitoring Student Frustration Level Using Blackbox Logs .................................................................................. 225
Prathmi Kurtiker (Goa University, India) and Ramrao Wagh (Goa
University, India)
Improving Blended Learning in Higher Education Through the Synergy between Learning Design and Learning Analytics .......................................................... 227
Rangana Jayashanka (University of Colombo School of Computing), K.P. Hewagamage (University of Colombo School of Computing), and E. Hettiarachchi (University of Colombo School of Computing)

Incorporating Learning Analytics in an Educational Game to Provide Players with Information about how to Improve Their Performance ............................................. 229
Jennifer Seaton (Athabasca University), Sabine Graf (Athabasca University), Maiga Chang (Athabasca University), and Arta Farhmand (Athabasca University)

Real-Time Automated Answer Scoring ................................................................. 231
Akash Nagaraj (PES University), Mukund Sood (PES University), and Gowri Srinivasa (PES University)

Track 7. Technology-Enhanced Science, Technology, Engineering and Math Education (TeSTEM@ICALT2018)

A Method for Teaching Object-Oriented Programming with Digital Modeling ............................................. 233
Gregory Acacio Seibert Oliveira (UNASP Hortolândia and UNIFACCAMP) and Rodrigo Bonacin (CTI and UNIFACCAMP)

Usability Analysis of Virtual Labs ................................................................. 238
Mrityunjay Kumar (VLEAD, IIT Hyderabad), Jessica Emory (Horace Mann School, USA), and Venkatesh Choppella (IIT Hyderabad)

Model Driven Approach for Virtual Lab Authoring - Chemical Sciences Labs ............................................. 241
Lalit Mohan Sanagavarapu (IIT Hyderabad), Venkatesh Choppella (IIT Shovan), and Raghu Reddy Y (IIT Hyderabad)

Evaluation of Student's 3D Modeling Capability Based on Model Completeness and Usage Pattern in K-12 Classrooms ................................................................. 244
Yi-Chieh Wu (National Chengchi University), Wen-Hung Liao (National Chengchi University), Chen-Yu Liu (National Chengchi University), Tsai-Yen Li (National Chengchi University), and Ming-Te Chi (National Chengchi University)

Effectiveness of Online Labs Teacher Training Workshop ................................................................. 249
Chandrashekar Pantina (Amrita Vishwa Vidyapeetham), Malini Prabhakaran (Amrita Vishwa Vidyapeetham), Georg Gutjahr, Raghu Raman, Raghu Raman, and Prema Nedungadi

StereoChem: Augmented Reality 3D Molecular Model Visualization App for Teaching and Learning Stereochemistry ................................................................. 252
Narasimha Swamy K L (IDP-Educational Technology, IIT Bombay, India), Pankaj S Chavan (IDP-Educational Technology, IIT Bombay, India), and Sahana Murthy (IDP-Educational Technology, IIT Bombay, India)

Learning Recursion from Music and Music from Recursion ................................................................. 257
Nikhil Sharma (Indian Institute of Technology Tirupati) and Sridhar Chimalakonda (Indian Institute of Technology Tirupati)

Effect of Blurred or Fainted Drawing Images on Students Perception of Isometric Drawing ................................................................. 262
Sudeep Upadhe (VVPIET Solapur India), Sanjeev Mhamane (VVPIET, Solapur India), and Ashwini Kulkarni (VVPIET, Solapur India)
The Influence of Self-Regulated Learning Support and Prior Knowledge on Learning Mathematics ................. 265
Meng-Chang Chen (Institute of Information Science, Academia Sinica, Taiwan), Yeali S. Sun (National Taiwan University, Taipei, Taiwan), and Tzu-Chi Yang (Institute of Information Science, Academia Sinica, Taiwan)

Tutorials in Engineering Physics Using Cooperative Learning: A Reflective Introspection ....................... 268
Sai Preeti Gouripeddi (GITAM, Hyderabad, India), Vijayanandhini Kannan (GITAM, Hyderabad, India), and Vanaja Mahadasu (MANUU, Hyderabad, India)

Mass Customization and Paperless Assembly in the Learning Factory for Cyber-Physical-Production Systems: Learning Module ‘From PaperBased to Paperless Assembly’ .......................................................... 270
Lukas Merkel (Fraunhofer IGCV), Johannes Atug (Fraunhofer IGCV), Christoph Berger (Fraunhofer IGCV), Stefan Braunreuther (Hochschule Augsburg), and Gunther Reinhart (Fraunhofer IGCV)

Track 8. Technology Enhanced Language Learning (TELL@ICALT2018)

Words in Motion: Kinesthetic Language Learning in Virtual Reality ......................................................... 272
Christian Vázquez (MIT), Lei Xia (MIT), Takako Aikawa (MIT), and Pattie Maes (MIT)

Scaffolding Feedback in Writing Using an Online Marking Platform: A Case Study ............................... 277
Jorge Villalon (Universidad Adolfo Ibanez), Mariana Besser (Pontificia Universidad Catolica de Chile), Javiera Lagos (Pontificia Universidad Catolica de Chile), and Paula Carrasco (Pontificia Universidad Catolica de Chile)

An Enhanced Interface for Feedback in Writing and Its Effect on Performance ..................................... 282
Marcelo Epuyao (Universidad Adolfo Ibanez), Esteban Roman (Universidad Adolfo Ibanez), and Jorge Villalon (Universidad Adolfo Ibanez)

Track 9. Technology Enabled Learning of Thinking Skills (TELoTS@ICALT2018)

Impact of Teaching Approaches to Computational Thinking on High School Students: A Systematic Mapping .......................................................... 285
Laíza Ribeiro Silva (University of Sao Paulo), Alan Pedro da Silva (Federal University of Alagoas), Armando Toda (University of Sao Paulo), and Seiji Isotani (University of Sao Paulo)

Digital Fabrication and 3D Modeling Applied to the Learning of Object Oriented Skills ..................... 290
Gregory A. Seibert Oliveira (UNIFACCAMP and UNASP) and Rodrigo Bonacin (UNIFACCAMP and CTI)

Design, Observe and Tinker: A Constructionist Approach to Introduce Maker Skills in Rural Schools ........ 293
Nagarajan Akshay (AMMACHI Labs, India), Nidhin Sugunan (AMMACHI Labs, India), Anirudh Muraleedharan (AMMACHI Labs, India), Amritha Natarajan (AMMACHI Labs, India), Aswathi P. (AMMACHI Labs, India), and Rao R. Bhavani (AMMACHI Labs, India)
Tinker: A Physical Computing Tool Kit for Computational Thinking ......................................................... 298
V. Anantha Narayanan (Amrita Vishwa Vidyapeetham, India), C. K.
Shyamala (Amrita Vishwa Vidyapeetham, India), and C. Shunmuga
Velayutham (Amrita Vishwa Vidyapeetham, India)

Designing TEL-Tools for Thinking Skills: Learning to Learn Together in a CSCL Environment ............... 301
Andreas Harrer (University of Applied Sciences and Arts, Dortmund,
Germany) and Andreas Lingnau (Humboldt-Universität zu Berlin, Germany)

Critical Thinking for Personalization in Communities of Inquiry .............................................................. 304
Maria Tzelepi (National & Kapodistrian University of Athens, Greece)
and Kyparisia Papanikolaou (School of Pedagogical & Technological
Education Athens, Greece)

Enhancement in Critical Thinking Skills Using the Peer Instruction Methodology ................................. 307
Vijayanandhini Kannan (GITAM School of Technology. GITAM (deemed to be
University), Rudraram, Hyderabad, India.) and Sai Preeti Gouripeddi
(GITAM School of Technology. GITAM (deemed to be University),
Rudraram, Hyderabad, India.)

Career Sustaining Competencies for Managing Disruptions and Innovative Problem Solving in a
Digitized World ........................................................................................................................................... 309
Xun Ge (University of Oklahoma), Janet K. Allen (University of
Oklahoma), and Farrokh Mistree (University of Oklahoma)

Track 10. Technology Supported Education for People with Disabilities
(TeDISABLE@ICALT2018)

taskEYE: "A Novel Approach to Help People Interact with Their Surrounding Through Their Eyes" .......... 311
Kunal Kavale (Vishwaniketan’s iMEET, Khalapur), Kiran Kokambe
(Vishwaniketan’s iMEET, Khalapur), and Sunita Jadhav (Vishwaniketan’s
iMEET, Khalapur)

An Approach to Measure and Improve the Cognitive Capability of ADHD Affected Children Through EEG
Signals ......................................................................................................................................................... 314
Chandana S (Alliance university) and Vijayalakshmi K (BMS College of
Engineering, India)

A Study to Design VI Classrooms Using Virtual Reality Aided Telepresence ........................................ 319
Dhanraj Jadhav (University of Mumbai, Mumbai, Maharashtra, India),
Parth Shah (Student Member, IEEE), and Henil Shah (University of
Mumbai, Mumbai, Maharashtra, India)

Towards Recommending Accessible Open Educational Resources ......................................................... 322
Hejer Ben Brahim (Technologies of Information and Communication Lab
Higher school of sciences and techniques of Tunis), Mohamed Koutheair
Khribi (Technologies of Information and Communication Lab Higher
school of sciences and techniques of Tunis), and Mohamed Jemni (ICT
Department)

Measuring the Effects of UDL in e-Learning Students Suffering from ADHD ........................................ 327
Laura Mancera (University de Girona), Silvia Baldiris (Direction of
RISP Comfenalco Cartagena), Ramón Fábregat (BCDS UDG Girona), and
Brezhnev Joya (GDI ECOPETROL Bogotá)
Fingerspelling - Indian Sign Language Training Tool ................................................................. 330
    Tejas Nanaware (Atharva College of Engineering), Sameer Sahasrabudhe
    (Indian Institute of Technology, Bombay), Nitin Ayer (Indian Institute
    of Technology, Bombay), and Romey Christo (Loyola-Icam College of
    Engineering and Technology)

Detection of Voice Pathologies and Evaluation of Pronunciation Based on Prosodic Features: Case of
Arabic Discourse ......................................................................................................................... 335
    Naim Terbeh (LaTICE Laboratory) and Mounir Zrigui (LaTICE Laboratory)

Spelling Errors by Normal and Poor Readers in a Bilingual Malayalam-English Dyslexia Screening Test ........ 340
    Mithun Haridas (Amrita Vishwa Vidyapeetham), Nirmala Vasudevan (Amrita
    Vishwa Vidyapeetham), G Jayachandran Nair (Amrita Vishwa
    Vidyapeetham), Georg Gutjahr (Amrita Vishwa Vidyapeetham), Raghu Raman
    (Amrita Vishwa Vidyapeetham), and Prema Nedungadi (Amrita Vishwa
    Vidyapeetham)

Digital Information Access for Ageing Persons ........................................................................... 345
    Carlos Vaz de Carvalho (Instituto Superior de Engenharia do Porto),
    Pedro Cano Olivares (Universidad de Granada), José María Roa
    (Universidad de Granada), Anna Wanka (Vienna University), and Franz
    Kolland (Vienna University)

Science Education Through Accessible Video Content ................................................................... 348
    Ashay Sahasrabuddhe (University of Mumbai, India) and Sameer
    Sahasrabudhe (IIT Bombay, Powai, India)

Track 11. Artificial Intelligence and Smart Learning Environments
(AISLE@ICALT2018)

An Evaluation Study of Learning Behaviors and Achievements with Ubiquitous Fraction (u-Fraction) for
Elementary School Student ........................................................................................................... 350
    Wu-Yuin Hwang (National Central University of Taiwan), Ika Qutsiati
    Utami (National Central University of Taiwan), and Holly Chen
    (National Central University of Taiwan)

Human Scoring Versus Automatic Scoring of Computer Programs: Does Algo+ Score as well as
Instructors? An Experimental Study ........................................................................................... 355
    Anis Bey (University of La Rochelle, France), Denis Boutheneau
    (University of Grenoble-Alpes, France), and Ronan Champagnat
    (University of La Rochelle, France)

Smart Attendance Monitoring System (SAMS): A Face Recognition Based Attendance System for Classroom
Environment ................................................................................................................................. 358
    Shubhobrata Bhattacharya (IIT Kharagpur), Gowtham Sandeep Nainala (IIT
    Kharagpur), Prosenjit Das (IIT Kharagpur), and Aurobinda Routray (IIT
    Kharagpur)
Track 12. Augmented Reality and Virtual Worlds in Education and Training (ARVWET@ICALT2018)

Promises and Constraints of Virtual Reality Integration: Perceptions from Pre-Service Teachers and K-12 Students ................................................................. 361
  Chientzu Candace Chou (University of St. Thomas) and Daniel A. Hoisington (University of St. Thomas)

Exploring the Opportunities and Challenges of Adopting Augmented Reality in Education in a Developing Country ................................................................. 364
  Adnan Sharif (Military Institute of Science and Technology (MIST)), Fahim Anzum (Military Institute of Science and Technology (MIST)), Ashratuz Zavin (Military Institute of Science and Technology (MIST)), Sayma Alam Suha (Military Institute of Science and Technology (MIST)), Anika Ibnat (Military Institute of Science and Technology (MIST)), and Muhammad Nazrul Islam (Military Institute of Science and Technology (MIST))

Mixed Reality in Education: Recent Developments and Future Trends ................................................................. 367
  Szu-Chi Chen (La Trobe University) and Henry Duh (La Trobe University)

GeoSolvAR: Augmented Reality Based Solution for Visualizing 3D Solids ................................................................. 372
  Navneet Kaur (Indian Institute of Technology Bombay), Rumana Pathan (Indian Institute of Technology Bombay), Ulfã Khwaja (Indian Institute of Technology Bombay), and Sahana Murthy (Indian Institute of Technology Bombay)

The Pervasive Rapid E-Preparedness Augmented Reality Environment (PREPARE) E-Learning Intervention for HAZWOPER Training of Fire Fighter/EMTs ................................................................. 377
  Deshawn Collington (Morgan State University), Jayfus Doswell (Juxtopia, LLC), Justin Johnson (Juxtopia, LLC), Marcus Messam (Juxtopia, LLC), Saboor Salaam (Juxtopia, LLC), and Ashley Boykin (Juxtopia, LLC)

Virtual Circuits: An Augmented Reality Circuit Simulator for Engineering Students ................................................................. 380
  Pedro Lucas (Escuela Superior Politécnica del Litoral ESPOL, Ecuador), David Vaca (Escuela Superior Politécnica del Litoral ESPOL, Ecuador), Federico Domínguez (Escuela Superior Politécnica del Litoral ESPOL, Ecuador), and Xavier Ochoa (Escuela Superior Politécnica del Litoral ESPOL, Ecuador)

Virtual Reality Learning Environments for Vocational Education: A Comparison Study with Conventional Instructional Media on Knowledge Retention. ................................................................. 385
  Sooraj K Babu (AMMACHI Labs, Amrita Vishwa Vidyapeetham, Amritapuri, India), Sooraj Krishna (AMMACHI Labs, Amrita Vishwa Vidyapeetham, Amritapuri, India), Unnikrishnan R (AMMACHI Labs, Amrita Vishwa Vidyapeetham, Amritapuri, India), and Rao R. Bhavani (AMMACHI Labs, Amrita Vishwa Vidyapeetham, Amritapuri, India)

The Effect of Learning English Idioms Using Scaffolding Strategy Through Situated Learning Supported by Augmented Reality ................................................................. 390
  Sie Wai Chew (National Sun Yat-sen University, Kaohsiung, Taiwan), Jun-Yu Jhu (National Sun Yat-sen University, Kaohsiung, Taiwan), and Nian-Shing Chen (National Sun Yat-sen University, Kaohsiung, Taiwan)
Track 13. Motivational and Affective Aspects in Technology-enhanced Learning (MA-TEL@ICALT2018)

Story Templates - Serious Storytelling to Support Learning ................................................................. 405
  Hlavacs Helmut (University of Vienna) and Anita Moser (University of Vienna)

Motivational Factors in Educational Gamification .............................................................. 408
  Darina Dicheva (Winston Salem State University), Keith Irwin (Winston Salem State University), and Christo Dichev (Winston Salem State University)

A Reinforcement Learning and Recurrent Neural Network Based Dynamic User Modeling System .......... 411
  Abhishek Tripathi (National Institute of Technology Karnataka, Surathkal), Ashwin T S (National Institute of Technology Karnataka, Surathkal), and Ram Mohana Reddy Guddeti (National Institute of Technology Karnataka, Surathkal)

Multimodal Recognition of Emotions with Application to Mobile Learning ........................................ 416
  Maria Lucia Barron-Estrada (Instituto Tecnológico de Culiacán), Ramon Zatarain-Cabada (Instituto Tecnológico de Culiacán), and Claudia G. Aispuro-Gallegos (Instituto Tecnológico de Culiacán)

Object Recognition Based on Representative Score Features ............................................................. 419
  Anu Singha (Tripura University (A Central University)) and Mrinal Kanti Bhowmik (Tripura University (A Central University))

Emotion Recognition of Stressed Speech Using Teager Energy and Linear Prediction Features ................ 422
  Surekha Reddy Bandela (National Institute of Technology Warangal) and T. Kishore Kumar (National Institute of Technology Warangal)

A Novel Approach of Software Based Rubrics in Formative and Summative Assessment of Affective and Psycomotor Domains Among the Engineering Under Graduates: Focusing on Accreditation Process Across Pan India ................................................................. 426
  Sandeep Ahankari (Vellore Institute of Technology, Vellore) and Abhijitkumar Jadhav (Annaasaheb Dange College of Engineering and Technology, Ashta)
A Corpus for Sentiment Analysis and Emotion Recognition for a Learning Environment .......................... 431
Raúl Oramas-Bustillos (Instituto Tecnológico de Culiacán), Maria Lucia Barron-Estrada (Instituto Tecnológico de Culiacán), Ramon Zatarain-Cabada (Instituto Tecnológico de Culiacán), and Sandra Lucia Ramírez-Avila (Instituto Tecnológico de Culiacán)

Unobtrusive Students' Engagement Analysis in Computer Science Laboratory Using Deep Learning Techniques ........................................................................................................ 436
Ashwin T S (National Institute of Technology Karnataka) and Ram Mohana Reddy Guddeti (National Institute of Technology Karnataka)

Track 14. Applications of Semantic Web technologies for Learning (SW-EL@ICALT2018)

Semantic Web Technology as a Tool for Integrating Training and Job Market Supply Chains .................. 441
Ornella Malandrino (University of Salerno) and Maria Rosaria Sessa (University of Salerno)

Sentiment Analysis of Sub-Events Extracted Out of an Event Using Word2vec ............................................. 444
Bettahally N. Keshavamurthy (National Institute of Technology Goa, Ponda, India), Shashank Prakash Srivastava (National Institute of Technology Goa, Ponda, India), Jaseel Haris (National Institute of Technology Goa, Ponda, India), Ankush Kumar (National Institute of Technology Goa, Ponda, India), and Seema Wazarkar (National Institute of Technology Goa, Ponda, India)

Doctoral Consortium (DC@ICALT2018)

Cognitive Level Analysis in a Learning Cycle ................................................................................................. 449
Syaamantak Das (Indian Institute of Technology Kharagpur)

Modeling Behavioral Dynamics in Confidence-Based Assessment ................................................................. 452
Rabia Maqsood (University of Milan) and Paolo Ceravolo (University of Milan)

"Help Me Build": Making as an Enabler for Problem Solving in Engineering Design .............................. 455
Ashutosh Raina (Indian Institute of Technology Bombay), Sahana Murthy (Indian Institute of Technology Bombay), and Sridhar Iyer (Indian Institute of Technology Bombay)

IAAS Trust in Public Domain: Evaluative Framework for Service Provider .................................................. 458
Archana B. Saxena (Jagan Institute of Management Studies (JIMS), Rohini) and Meenu Dawe (Jagannath University, Jaipur, Rajasthan, India)

Author Index .................................................................................................................................................. 461
