Rice ECE offers graduate and undergraduate degrees in a dynamic learning environment. We educate engineers and scientists who go on to be leaders in academia, industry and government, where they redefine the limits of technology.

The scope of our interdisciplinary research collaborations is virtually unmatched. Rice ECE is globally known for extensive reach across disciplines.

We have a strong research relationship with government and industry. Rice centers and groups continue to win vital support from government agencies and industry partners.

We invite you to learn more about Rice University and the Department of Electrical and Computer Engineering by finding us on social media and checking our website frequently to stay in touch with the exciting and groundbreaking achievements that happen daily in our ECE community.
