### Sixth International Workshop on Big Data and Cloud Performance (DCPerf 2016)

#### Session 1: Data Analytics and Platforms

- Continuously Improving the Resource Utilization of Iterative Parallel Dataflows .................... 1  
  Lauritz Thamsen, Thomas Renner, and Odej Kao
- Throughput: A Key Performance Measure of Content-Defined Chunking Algorithms ....................... 7  
  Bertil Chapuis, Benoît Garbinato, and Periklis Andritsos
Using Text Analytics to Discover Online Newspapers’ Role in Disseminating Government Policy — A Malaysian PDPA Context .................................................13
  May Fen Gan and Hui Na Chua

Efficient Embedding of Dynamic Languages in Big-Data Analytics ..................................................19
  Luca Salucci, Daniele Bonetta, and Walter Binder

Session 2: Cloud Resource Management

Elastic Scaling in the Cloud: A Multi-tenant Perspective .................................................................25
  Navaneeth Rameshan, Ying Liu, Leandro Navarro, and Vladimir Vlassov

Abstraction Layer Based Virtual Data Center Architecture for Network Function Chaining .................................................................31
  Ali Kashif Bashir, Yuichi Ohsita, and Masayuki Murata

Energy-Aware HTTP Data Transfers ..................................................................................................37
  Ismail Alan and Tevfik Kosar

Machine Learning-Based Elastic Cloud Resource Provisioning in the Solvency II Framework .................................................................43
  Andrea La Rizza, Giuseppe Casarano, Gilberto Castellani, Bruno Ciciani,
  Luca Passalacqua, and Alessandro Pellegrini

Session 1: Network Security Monitoring

A Misbehavior Node Detection Algorithm for 6LoWPAN Wireless Sensor Networks ........................................49
  Vinh Hoa La and Ana R. Cavalli

Session 2: Cloud Security Monitoring

SLA-Driven Monitoring of Multi-cloud Application Components Using the MUSA Framework ................55
  Erkuden Rios, Wissam Mallouli, Massimiliano Rak, Valentina Casola,
  and Antonio M. Ortiz

Intrusion Detection and Attack Tolerance for Cloud Environments: The CLARUS Approach ................61
  Georges Ouffoué, Antonio M. Ortiz, Ana R. Cavalli, Wissam Mallouli,
  Josep Domingo-Ferrer, David Sánchez, and Fatiha Zaidi

Data Mobility as a Service ..................................................................................................................67
  Thanh Dat Dang and Doan Hoang
Session 3: Network Security Monitoring

Improving SNI-Based HTTPS Security Monitoring .................................................................72
   Wazen M. Shbair, Thibault Cholez, Jérôme François, and Isabelle Chrisment

An Analysis of Secure M2M Communication in WSNs Using DTLS ..................................78
   Raul A. Fuentes-Samaniego, Ana R. Cavalli, and Juan A. Nolazco-Fores

International Workshop of Software-Defined Data Communications and Storage (SDDCS 2016)

Session 1: Storage Devices and Systems

Leveraging Semantic Links for High Efficiency Page-Level FTL Design ..................................84
   Jian Zhou, Xunchao Chen, Jun Wang, Fei Wu, You Zhou, and Changsheng Xie

MRAMsim: A Simulator for Magnetoresistive RAM .................................................................90
   Xin Shi, Fei Wu, Changsheng Xie, Haitao Huang, and Ming Zhu

Hadoop Based Scalable Cluster Deduplication for Big Data ..................................................98
   Qing Liu, Yinjin Fu, Guiqiang Ni, and Rui Hou

Session 2: Networks and Data Centers

Towards Efficient Multicast Communication in Software-Defined Networks .........................106
   Tim Humernbrum, Bastian Hagedorn, and Sergei Gorlatch

Virtual Cluster Placement in Datacenters ..................................................................................114
   M. S. Parvez Khan, Xiangning Qi, and Peter Varman

Toward Taming Policy Enforcement for SDN in the RIGHT Way: Or Can We? ......................122
   Kai Bu, Minyu Weng, Junze Bao, Zhenchao Lin, and Zhikui Xu

15th International Workshop on Assurance in Distributed Systems and Networks (ADSN 2016)

Session 2: Different Aspects of Research on Assurance

Mean Time to Security Failure of VM-Based Intrusion Tolerant Systems .................................128
   Junjun Zheng, Hiroyuki Okamura, and Tadashi Dohi

Information Dissemination Scheme Using Location-Based Mobile Agents in Vehicular Ad Hoc Networks ..........................................................134
   Takeshi Hashimoto, Junichi Aoki, Tomoyuki Ohta, and Yoshiaki Kakuda

Evaluation on Required Time and Arrival Order of Blocks for Segmented File Downloading Methods Using PR-SCTP and Unordered Delivery .............................................140
   Junichi Funasaka and Kazuya Takeda
First International Workshop of Edge Computing (WEC 2016)

Session 1
User-Friendly, Versatile, and Efficient Multi-link DNS Service Discovery ..................................................146
  Daniel Kaiser, Marcel Waldvogel, Holger Strittmatter, and Oliver Haase
Tasklets: Overcoming Heterogeneity in Distributed Computing Systems ..................................................156
  Dominik Schäfer, Janick Edinger, Sebastian VanSyckel, Justin Mazzola Paluska, and Christian Becker
Design and Implementation of Middleware for IoT Devices toward Real-Time Flow Processing ..............................................................162
  Yugo Nakamura, Hirohiko Suwa, Yutaka Arakawa, Hirozumi Yamaguchi, and Keiichi Yasumoto
What’s So Different about Blockchain? — Blockchain is a Probabilistic State Machine ..........................................................168
  Kenji Saito and Hiroyuki Yamada

Session 2
Elastic Erasure Coding for Adaptive Redundancy ..................................................................................176
  Wan Hee Cho and Anwitaman Datta
Fog Cloud Caching at Network Edge via Local Hardware Awareness Spaces ........................................184
  Marat Zhanikeev
Enhancing P2P Cooperation through Transitive Indirect Reciprocity .......................................................189
  Eduardo de Lucena Falcão, Francisco Brasileiro, Andrey Brito, and Jose Luis Vivas

Author Index ............................................................................................................................................199
