Message from the EM2I 2012 Workshop Co-chairs

Welcome to the Sixth International Workshop on E-Marketplace Integration and Interoperability (EM2I’12) in Hangzhou, China and thank you for your interest and support.

EM2I’12 is a venue for presenting the state-of-the-art research and development achievements in the design, introduction, and use of integration technology for e-marketplaces that affect business interoperability between enterprise information systems, within supply chains, and between fragmented e-marketplaces. With the rapid development of e-business, e-marketplace is proven to be a common business information space that integrates various e-business functions from electronic marketing to electronic trading, electronic logistics and electronic payment.

This EM2I’12 aims at providing a multi-disciplinary forum and encourages participation of people from diverse backgrounds, cultures and perspectives. It welcomes contributions from researchers and practitioners in all sectors, including academia, industry, and government.

EM2I’12 is held together with The IEEE International Conference on E-Business Engineering (ICEBE 2012) on September 9-11, 2012 in Hangzhou. We thank all workshop committee members, all workshop contributors, and the organization committee of the ICEBE 2012 for their great support and valuable guidance for the program.
