# Table of Contents

**Message from the Conference Chair** ................................................................. xiv
**Organizing Committee** .................................................................................. xv
**Reviewers** ....................................................................................................... xvi

## International Conference on Intelligent Computing and Cognitive Informatics

- **Impact of Grey Algorithms and E-Voting Technology on Exploration of Gigabit Switches and Application for Redundancy** ................................................................. 3
  - *Zhi-Qiang Meng*

- **An Improved Genetic Algorithm for Text Feature Selection** ................................. 7
  - *Wei Zhao and Yafei Wang*

- **Study of Authentication Based on Smart Card and Fingerprint Dynamic Password** ........................................................................................................... 11
  - *Sun Lihong*

- **Research on Social Service Industry under the Background of E-Commerce in Wuhan Metropolitan Area** ................................................................. 14
  - *Xiang Lin*

- **Empirical Study of Determining Factors of Expatriates’ Willingness to Repatriate in China’s MNCs** .......................................................................................... 18
  - *Xiuzhen Jiang and Genyuan Zhong*

- **Genetic Algorithm for Energy Efficient and Coverage-Preserved Positioning in Wireless Sensor Networks** ................................................................. 22
  - *Mojtaba Romoozi, Mehdi Vahidipour, Morteza Romoozi, and Sudeh Maghsoodi*

- **The Workflow Management System Model of Spacecraft Test Based on Web Service** ........................................................................................................... 26
  - *Xiaoping Du, Jianjun Song, Yangsheng Zhao, and Xin Li*
An Expert System for Fault Diagnosis in Diesel Engine Based on Wavelet Packet Analysis and Hybrid PSO-DV Based Neural Network
Bo Liu, Hongxia Pan, and Xiuling Li

Computer Implementation of Stop Signal Paradigm for the Development of Response Inhibition in Human
Jieru Lu, Bing Su, Hongyuan Wang, Yihan Zhang, and Suhong Wang

Features Discovery for Web Classification Using Support Vector Machine
M.S. Othman, L.M. Yusuf, and J. Salim

Application of Neural Networks in Direct Torque Control of Induction Motors by Reference Flux Vector Method
Mazda Moattari, Seyed Ali Beheshtian, Roozbeh Asad, and Mohammad Hosain Shakoor

AOQ and ATI for Double Sampling Plan with Using Fuzzy Binomial Distribution
Ezzatallah Baloui Jamkhaneh and Bahram Sadeghpour Gildeh

A Risk Early Warning Model in Real Estate Market Based on Support Vector Machine
Tao Liu and Yajuan Liu

Web-Oriented Book Domain Metadata Description Research
Hao Guo, Junjie Chen, and Tao Guo

Interval Appraise Method Based on Grey Relation and TOPSIS
Xiaoxu Lu and Jintao Meng

Effect of Articulatory Trajectories on Phoneme Recognition Performance
Mohammad Nurul Huda, Ghulam Muhammad, Mohammad Mahedi Hasan, Sharif Mohammad Musifiqu Rahman, Foyzul Hassan, and Mohammad Rokibul Alam Kotwal

Which One is Dominant for Neural Network Based Speech Recognition – Δ or ΔΔ Articulatory Parameters?
Mohammad Nurul Huda, Ghulam Muhammad, Mohammad Mahedi Hasan, Mohammed Rokibul Alam Kotwal, Foyzul Hassan, Gazi Md. Moshfiqul Islam, Md. Shahadat Hossain, and Chowdhury Mofizur Rahman

Rotating Machinery Fault Diagnosis Based on Support Vector Machine
Yajuan Liu and Tao Liu

Bound of Information Need in Information Retrieval
Biao Wang and Guanglai Gao

“ASIC Design Based on PLD” Teaching Research and Discussion
Yanyan Dong, Youxiang Ye, Wengang Wu, and Yiling Sun

The Application of Bilingual Teaching of Operating System in Private College
Shukun Liu and Xiaohua Yang

Testing Statistical Hypotheses with Fuzzy Data
Ezzatallah Baloui Jamkhaneh and Asgar Nadi Ghara

Lightning Forecasting Using Ann-BP and Radiosonde ........................................................................................................152
Leong Yeng Weng, Jamaludin Bin Omar, Yap Keem Siah, Syed Khaleel Ahmed, Izham Bin Zainal Abidin, and Noradlina Abdullah

The Knowledge Description of Teaching Resource and Its Application ..........................................................156
Shuli Fan, Wenling Liu, Xiankun Zhang, and Xin Luo

Automatic Judgment of the Subjectivity and Objectivity of the Chinese Words ...............................................160
Jing Zhang and Hao Jin

The Application of Hierarchical Tag Cluster in Multimedia Search ..............................................................................164
Jijie Zheng and Xianjie Wu

Comparative Analysis and Cooperative Embedded Application of Ghost Software and Recovery Card in University Laboratory ..................................................................................................................168
Fengcheng Zhou, Jie Yang, and Peng Wang

A Constructive Neural Network Learning Method Based on Quotient Space and Its Application in Coal Mine Gas Prediction ..................................................................................................................172
Yujun Liu, Yueqin Zhang, Yu Zhu, and Zhenxing Zhao

Collocation Studies from Chinese English Learner’s Perspective ..............................................................................................175
Wenxin Xiong

Risk Analysis Using Extended Fuzzy Cognitive Maps ...............................................................................................179
Beatrice Lazzerini and Lusine Mkrtchyan

The Theory and Architecture of Network Control System .......................................................................................183
Lejiang Guo, Yuanmin Tang, Zhou Liu, and Wei Xiong

Study on Greenhouse Environment Neural Network Model Based on PSO Algorithm ............................................................................................................................187
Bin Zhao and Keqi Wang

Cognitive Popular Science Feedbacks: From Markets to Marketing .................................................................................191
Junfeng Tian, Anyuan Deng, and Hu Peng

An Expect Energy Efficient Algorithm for Wireless Sensor Networks .................................................................................195
Ding Yong

A GA-Based Classifier for Microarray Data Classification .........................................................................................199
Supoj Hengpraprohm, Suvimol Mukviboonchai, Rujirawadee Thammasang, and Prabhas Chongstitvatana

Improved Genetic Algorithm for Vehicle Routing Problem with Time Windows .............................................................................................................................203
Wenjun Wang

Research on Information Retrieval System Based on Semantic Web and Multi-Agent .................................................................................................................................207
Junwei Luo and Xiao Xue

Use of SQLite on Embedded System .................................................................................................................................210
Dai Chen, Xudong Han, and Wei Wang
Semantic Web-Based Personalized Recommendation System of Courses
Knowledge Research .................................................................................................................. 214
    Qing Yang, Junli Sun, Jinqiao Wang, and Zhiyong Jin
Component Behavior Modeling and Relativity Analysis .......................................................... 218
    Wei Wang and Tong Li
Design of Model Predictive Control for Permanent Magnet Synchronous Motors .................. 223
    Yongbin Wang and Hai Lin
Noise Assessment in the Diagnosis of Rolling Element Bearings ....................................... 227
    Beatrice Lazzerini and Sara Lioba Volpi
Risk Assignment Model Based on Ant Colony Algorithm ....................................................... 231
    Shujing Zhou and Shan Li
Projection Pursuit Model Based on PSO in the Real Estate Risk Evaluation ......................... 235
    Shujing Zhou and Shan Li
Study on Gob-Side Small Pillar Stress Analysis and Deformation Mechanism ..................... 239
    Xiu-feng Meng and Hong Peng
Fault Detection Based on Real-Value Negative Selection Algorithm of Artificial Immune System .............................................................................................................................. 243
    Xin Yue, Dongge Wen, Haifeng Ma, and Jianfei Zhang
Improved Hierarchical Clustering Algorithm for Software Architecture Recovery ................. 247
    Yuxin Wang, Ping Liu, He Guo, Han Li, and Xin Chen
Dynamic Multicast Tree to Support Time-Shifting in Real-Time Streaming ......................... 251
    Weihui, Junpeng Xu, and Cong Qing
An Efficient Algorithm about Extracting Large MIB Table ................................................... 255
    Liping Lv and Tingtang Ming
Temperature Forecast Based on SVM Optimized by PSO Algorithm ..................................... 259
    Guang Wang, Yun-fei Qiu, and Hong-xia Li
The Comparison and Trend Study of Care Design in the Aging Society .............................. 263
    Yongxiang Liu and Yao Zhang
Maximum Power Point Tracking in Photovoltaic System by Using Fuzzy Algorithm ............. 267
    Qiufeng Jing, Sujuan Liu, and Hai-zhu Yang
Study of Control Strategy on Small Power Photovoltaic Grid-Connected Generation System .... 271
    Sujuan Liu, Qiufeng Jing, and Hai-zhu Yang
Study on Volatile Compounds of Cabernet Dry Red Wines from Different Production Regions in China by DPS Software ................................................................. 275
    Fengjuan Zhou, Jinhai Huang, Xi Yang, and Zuobin Xu
An Application of Computer-Generated Holography in Optics ......................................... 279
    Shiwei Xie and Hongying Xiao
