Program Committee ..................................................................................... xiv
Additional Reviewers .................................................................................. xvi
Organising Committee ................................................................................ xviii
Sponsors ......................................................................................................... xix

FULL PAPERS

Session 1A: mTransformation

Novel User-Centric Model for m-Business Transformation ................................... 3
J. Chan and D. Hoang

Nomadic Culture and Its Impact on Organizational Support for Nomadic Behaviors and
Employee Job Satisfaction ........................................................................ 9
L. Chen and C. Corritore

Challenges in Mobile Transformations: A Requirements Modeling Perspective for
Small and Medium Enterprises .................................................................. 16
I. Marmaridis and B. Unhelkar

Session 1B: Privacy and Security I

SPAM: Secure Protocol for Authentication in Mobile-Communications .................... 23
M. Das and A. Saxena

A Two-Factor Mobile Authentication Scheme for Secure Financial Transactions ........ 28
R. Di Pietro, G. Me, and M. Strangio

An Experimental Study of a Business Domain Independent Application Level and
Internet Access Authentication and Authorization Concept ............................ 35
R. Huber and N. Jordan

Session 1C: Case Studies

Mobile Customer Relationship Management: An Explorative Investigation of the
Italian Consumer Market ............................................................................ 42
G. Camponovo, Y. Pigneur, A. Rangone, and F. Renga

The Impact of Wireless Field Force Automation on New Zealand Trade Services Organizations .... 49
D. Innes, S. Barnes, and E. Scornavacca

Segments of the Mobile Internet Industry — Examples from Finland and Japan .............. 56
M. Soininen

Session 1D: Content Innovation in the Mobile Arena I

Mobile Phone-Enhanced User Interface of Remote Monitoring System ..................... 63
Y. Imai, M. Ooga, D. Yamane, O. Sadayuki, Y. Iwamoto, and S. Masuda

Using Wireless Personal Digital Assistants in a Restaurant: Impact and Perceived Benefits .......... 69
M. Prasad, E. Scornavacca, and H. Lehmann
Emerging Issues in Location Based Tourism Systems ................................................................. 75
  P. Hawking, A. Stein, J. Zeleznikow, P. Sharma, D. Nugent, L. Dawson, and S. Foster

Session 1E: Mobile Business Processes I

Managing Inter-Organizational Business Processes Using an Architecture for
M-Business Scenarios.................................................................................................................. 82
  O. Adam, P. Chikova, and A. Hofer

A Framework for Integrating Mobility into Collaborative Business Processes...................... 89
  I. Hawryszkiewycz and R. Steele

Improving Business Processes with Mobile Workforce Solutions .......................................... 94
  Y. Wang, E. van de Kar, G. Meijer, and M. Hünteler

Session 2A: Mobile Entertainment I

Ubitem: A Framework for Interactive Marketing in Location-Based Gaming Environment.......... 103
  S-Y. Han, M-K. Cho, and M-K. Choi

A Framework with a Peer Fostering Mechanism for Mobile P2P Game Development ............... 109
  H. Wolf and M. Wang

Session 2B: Privacy and Security II

Charged Location Aware Services — A Privacy Analysis......................................................... 116
  P. Langendörfer, K. Piotrowski, and M. Maaser

Security Risks in Mobile Business......................................................................................... 121
  D. Phu and R. Jamieson

Session 2C: Personalised Mobile Applications

Time Based Personalization for the Moving User .................................................................... 128
  C. Panayiotou, M. Andreou, G. Samaras, and A. Pitsillides

Mobile Recommendation Systems for Decision Making “On the Go” .................................... 137
  H. van der Heijden, G. Kotsis, and R. Kronsteiner

Session 2D: Content Innovation in the Mobile Arena II

Business Networks and New Mobile Service Development.................................................. 144
  M. Heikkinen and J. Still

Toward a New Paradigm of Innovation on the Mobile Platform: Redefining the
Roles of Content Providers, Technology Companies, and Users ........................................... 152
  N. Ziv

Session 2E: Mobile Business Processes II

Process Visibility: How Mobile Technology Can Enhance Business-Customer
Care in the Paper Industry....................................................................................................... 159
  V. Kadytė

MOSES — A Mobile Safety System for Work Clearance Processes ....................................... 166
  W. Kurschl, S. Schmid, and C. Domscha
Session 3A: Mobile Entertainment II

Evolution of 3D Games on Mobile Phones .............................................................. 173
  F. Chehimi, P. Coulton, and R. Edwards

Mobile Operator Publishing and Entertainment Platform ...................................... 180
  B. Downes, T. Pfeifer, and C. Ryan

Mobile Entertainment: Review and Redefine ....................................................... 187
  C. Wong and P. Hiew

Session 3B: Privacy, Security, and Trust Management III (short papers)

Session 3C: Architectural and Modelling Issues

Architectures for Mobile Device Integration into Service-Oriented Architectures (short paper) .......... 193
  I. Duda, M. Aleksy, and T. Butter

Addressing the Challenges of Web Applications on Mobile Handheld Devices ................................ 199
  S. Murugesan and V. Appiah

ContextUML: A UML-Based Modeling Language for Model-Driven Development of Context-Aware Web Services Development ............................................................... 206
  Q. Sheng and B. Benatallah

Session 3D: Mobile e-Learning

ARIS MOBILE: Helping to Define the Future of Mobile Learning ....................... 213
  G. Grohmann, A. Hofer, and G. Martin

Introducing Location-Based Services into Information Technology Curriculum: Reflections on Practice ........................................................................................................ 220
  K. Michael and H. Tootell

Does Team Size Matter in Mobile Learning? ....................................................... 227
  G. Schwabe, C. Göth, and D. Frohberg

Session 3E: Wireless Sensor Networks

Wireless Remote Healthcare Monitoring with Motes .............................................. 235
  E. Lubrin, E. Lawrence, and K. Navarro

Smart Sensor Networks: Communication, Collaboration and Business Decision Making in Distributed Complex Environments ................................................................. 242
  M. Hecker, A. Karol, C. Stanton, and M. Williams

An Innovative Interactive Web-Enabled Learning Space for Exploring Intelligent Mobile Sensor Networks and their Business Applications ......................................................... 249
  C. Stanton and M. Williams

Session 4A: Interaction Design and Mobile Business I

Contextual Perceived Usefulness? Toward an Understanding of Mobile Commerce Acceptance .......... 255
  T. Lee and J. Jun

The Disappearance of the Screen — Research on Audible Interfaces in the Ubiquitous Computing Environment ....................................................................................... 262
  D. Michelis, T. Nicolai, F. Resatsch, and T. Schildhauer
Session 4B: Mobile Services in the Financial Services Industry

Adaptive Data Delivery Framework for Financial Time Series Visualization .............................................. 267
T.-C. Fu, F.-L. Chung, C.-F. Lam, R. Luk and C.-M. Ng

Spanish Mobile Banking Services: An Adoption Study ............................................................................... 274
F. Martínez Borreguero and J. Chaparro Peláez

Session 4C: Government/Regulatory Issues

WLAN Communities and Internet Access Sharing: A Regulatory Overview ............................................ 281
G. Camponovo and D. Cerutti

Simple Implementation Framework for m-Government Services ............................................................... 288
A. Mukherjee and A. Biswas

Session 4D: Mobile Marketing I

Mobile Marketing: Killer Application or New Hype? ............................................................................... 294
P. McManus and E. Scornavacca

Performance Measurement of Mobile Marketing in Multi-Channel Environments ........................................ 301
R. Schierholz, A. Ostrowski, S. Glissmann, L. Kolbe, and W. Brenner

Session 5A: Interaction Design and Mobile Business II

Proposition of an M-Business Procedure Model for the Development of Mobile User Interfaces ............ 308
S. Glissmann, S. Smolnik, R. Schierholz, L. Kolbe, and W. Brenner

From Stationary Work Support to Mobile Work Support: A Theoretical Framework ......................... 315
Y. Yuan and W. Zheng

Session 5B: Mobile Payments I (short papers)

Session 5C: Adoption of Mobile Technology I

Mobile Technology Adoption for Mobile Information Systems: An Activity Theory Perspective ........ 322
M. Er and R. Kay

Acceptance and Perceptions of Advanced Mobile Services: Alterations during a Field Study ............ 326
L. Knutsen, I. Constantiou, and J. Damsgaard

Session 6A: Beyond Mobile: What Comes Next?

Mobile Application Platform Strategies: Business Model Engineering for the Data Intensive Mobile Age ................................................................. 333
T. Yamakami

The Web of Augmented Physical Objects ................................................................................................. 340
T. Nicolai, F. Resatsch, and D. Michelis

Session 6B: Mobile Payments II

Merchant Adoption of Mobile Payment Systems ...................................................................................... 347
N. Mallat and V. Tuomainen

Evaluating Wireless Technologies in Mobile Payments — A Customer Centric Approach ..................... 354
A. Zmijewska
Session 6C: Adoption of Mobile Technology II

Exploring Early Usage Patterns of Mobile Data Services ................................................................. 363
M. Bina and G. Giaglis

The Role of Marketing in the Adoption of New Mobile Services: Is it Worth the Investment? .......... 370
J. Blechar, I. Constantiou, and J. Damsgaard

Session 6D: Mobile Marketing II

Implementing Location Based Information/Advertising for Existing Mobile Phone Users in Indoor/Urban Environments ........................................................................................................ 377
O. Rashid, P. Coulton, and R. Edwards

The Effect on Familiar Mobile Device and Usage Time on Creating Perceptions Towards Mobile Services ........................................................................................................ 384
A. Ristola, T. Koivumäki, and M. Kesti

Session 7A: Interaction Design and Mobile Business III (short papers)

Session 7B: Mobile Payments III

Pre-Standardisation of Mobile Payments: Negotiations within Consortia........................................... 392
A. Lim

MMPS: A Versatile Mobile-to-Mobile Payment System ...................................................................... 400
A. Saxena, M. Das, and A. Gupta

Session 7C: Adoption of Mobile Technology III

Predicting Consumer Intention to Use Mobile Commerce in Taiwan ................................................ 406
H.-H. Lin and Y.-S. Wang

Market Acceptance for the Satellite DMB (Digital Multimedia Broadcasting) Services in Korea ........ 413
Y.-W. Sawng, H.-S. Han, and J.-S. Lee

Using System Dynamics to Simulate the Strategic Planning of the Mobile Commerce Terminal (MCT) Industry and Mobile Commerce Diffusion ................................................................. 420
W. Wang and F. Cheong

Session 7D: Mobile Marketing III

Service Diffusion Strategies for Push to Talk over Cellular ............................................................... 427
T. Ali-Vehmas and S. Luukkainen

Consumers Perceptions and Attitudes towards SMS Mobile Marketing in New Zealand .................. 434
A. Carroll, S. Barnes, and E. Scornavacca

Perspectives of Mobile Advertising in Greek Market (short paper) ................................................... 441
N. Androulidakis and I. Androulidakis

Session 7E: Mobile Applications

Speech Interface: An Enhancer to the Acceptance of M-Commerce Applications ................................ 445
Y. Fan, A. Saliba, E. Kendall, and J. Newmarch

Technology Assessment for Single Stage and Multi-Stage Mobile Applications ............................... 452
J. Haagsma, R. Haylock, and K. Sandrasegaran

Contextual Replication for Mobile Users ........................................................................................... 457
M. Rangan, E. Swierk, and D. Terry
Session 8A: Mobile Health I
A Mobile Medical Monitoring System: Concept, Design and Deployment ............................................. 464
M. Biemer and J. Hampe
Wireless Solutions Developed for the Australian Healthcare: A Review ................................................. 472
R. Gururajan and S. Murugesan

Session 8B: Mobile Technologies
Identity Management in Vertical Handovers for UMTS-WLAN Networks ............................................. 479
M. Li, K. Sandrasegaran, and X. Huang
ZoneIT: Using Short-Range Radios to Control Mobile Device Functionality ......................................... 485
T. Moors, M. Mei, and A. Salim

Session 8C: Mobile Content Distribution
Business Model Scenarios for Seamless Content Distribution and Delivery ........................................... 492
U. de Montalvo, P. Ballon, and J. Sokol
Analysis, Specification and Generation of Mobile Computer Data Synchronisation ................................ 499
Q. Ye, A. Sloane, and D. Verity

Session 8D: Mobile Information Retrieval
Using the Novel FLC Dynamic Buffer Size Tuning Technique to Support More Dependable Location-Aware Information Retrieval ................................................................. 507
W. Lin, T. Dillon, and A. Wong
RTPD/MACSC: A Novel Approach for Effective Pervasive Information Retrieval ................................ 514
R. Wu, T. Dillon, and A. Wong

Session 9A: Mobile Health II
A Functional Framework of Ambient iCare e-Services for Quality Aging .............................................. 521
W.-L. Chang and I.-C. Lin
Wireless and Wearable Overview: Stages of Growth Theory in Medical Technology Applications ....... 528
P. Ooi, G. Culjak, and E. Lawrence

Session 9B: Mobile Agents I
Boosting m-Business Using a Truly Secured Protocol for Data Gathering Mobile Agents ..................... 537
R. Al-Jaljouli
Distributed Sendbox Scheme for Mobile Agent Communication ............................................................ 545
F.-Y. Leu, H.-H. Tsai, and W.-K. Chang

Session 9C: Mobile Network Management
Impacts and Cost of Faults on Services in Cellular Networks ............................................................. 551
O. Kogeda, J. Agbinya, and C. Omlin
MACAM — Mobile Administration and Control Access Management in Networking .......................... 556
T. Nguyen, L. Ouakil, and G. Pujolle

Session 10A: Mobile Middleware and Mobile Environments
Scalable M-Commerce and Load Balancing Technique Using Cost Based Approach ............................ 559
T.-H. Huang and J. Wu
A Context-Sensitive Service Discovery Protocol for Mobile Computing Environments ................................. 565
   R. Robinson and J. Indulska

Session 10B: Mobile Agents II

Knowledge Management through Mobile Networks in Emergency Situations ............................................ 573
   H. Pousti and H. Hasan

SDITPM: A Novel Transfer Policy Model for Agent Server Migration in E-Business (short paper) .......... 581
   J. Lo, A. Wong, and W. Lin

Session 10C: Mobile Networking I

Mobile Station Location Based on Hybrid of Signal Strength and Time of Arrival .................................... 585
   G. Kbar and W. Mansoor

Optimal Placement of Access Point in WLAN Based on a New Algorithm ............................................. 592
   S. Kouhbor, J. Ugon, A. Kruger, and A. Rubinov

Session 10D: Mobile Technologies and Adoption (short papers)

Session 11A: Mobile Middleware and Networking (short papers)

Session 11B: Fixed versus Wireless Networks

Methodology for the Assessment of Emerging Wireless and Wireline Telecommunications Technologies .................................................. 599
   J. Haagsma, R. Haylock, and K. Sandrasegaran

Emerging Markets and Benefits of Fixed to Wireless Substitution in Africa .............................................. 605
   Y. Li and J. Agbinya

Session 11C: Mobile Networking II

A Simulative Study on the Performance of Fast Signaling in a Mobile IPv6-Wireless LAN Based Network Environment ................................................................. 610
   N. Jordan, R. Huber, and J. Fabini

Wireless VPNs: An Evaluation of QoS Metrics and Measures ..................................................................... 616
   K. Munasinghe and S. Shahrestani

Session 11D: RFID

The Pros and Cons of RFID in Supply Chain Management ......................................................................... 623
   K. Michael and L. McCathie

RFID-Based Logistics Control System for Business-to-Business E-Commerce ....................................... 630
   L. Ye and H. Chan
Session 3B: Privacy, Security, and Trust Management III

Security Issues in SIP Signaling in Wireless Networks and Services ............................................ 639
   E. Lakay and J. Agbinya

Introduction of 3rd Generation Wireless Services in a Multi-Enterprise VPN Environment:
Case of the Port of Rotterdam ........................................................................................................ 643
   L. Pau, H. Chen, P. van de Coterlet, and R. Zuidwijk

A Framework of Privacy Shield in Organizational Information Systems ........................................ 647
   G. Skinner, S. Han, and E. Chang

Mobile Ticketing System Employing TrustZone Technology .......................................................... 651
   W. Hussin, P. Coulton, and R. Edwards

Session 5B: Mobile Payments I

Comparing Customer Value Creation in Internet and Mobile Banking.............................................. 655
   T. Laukkanen

A Proposal for a Multi-Perspective Analysis of the Mobile Payment Environment ......................... 659
   J. Ondrus, G. Camponovo, and Y. Pigneur

Inhibitors and Facilitators for Mobile Payment Adoption in Australia: A Preliminary Study .............. 663
   E. Teo, B. Fraunholz, and C. Unnithan

Session 7A: Interaction Design and Mobile Business III

Query-by-Object Interface for Dynamic Access and Information Requirement Elicitation................. 667
   S. Rahman, S. Bhalla, and T. Hashimoto

Use Scenarios: A Useful Design Tool for mBusiness ....................................................................... 671
   K. Sadler, T. Robertson, and M. Kan

Session 10D: Mobile Technologies and Adoption

A Feasible Security Mechanism for Low Cost RFID Tags ............................................................... 675
   G-C. Chang

Compression Scheme for Faster and Secure Data Transmission over Networks .............................. 678
   B. Shajeemohan and V. Govindan

Factors Influencing the Adoption of Mobile Entertainment: Empirical Evidence from a
Malaysian Survey ......................................................................................................................... 682
   C. Wong and P. Hiew

Session 11A: Mobile Middleware and Networking

UWB Signal Bandwidth Expansion and Synthesis Using Prolate and Wavelet Functions ............... 686
   J. Agbinya and H. Truong

A Middleware-Based Script Language ............................................................................................. 690
   Z.-B. Gan, C. Lin, and V. Vijay

A Middleware for Supporting Context-Aware Services in Mobile and Ubiquitous Environment ...... 694
   N.-S. Park, K.-W. Lee, and H. Kim

Author Index ..................................................................................................................................... 699
