Message from the Chairs – MUTATION 2016

It is our pleasure to welcome you to the 11th edition of the International Workshop on Mutation Analysis (Mutation 2016), collocated with the 9th IEEE International Conference on Software Testing, Verification and Validation (ICST’16) in Chicago, US. Since its first edition, the Mutation workshop has provided a forum to bring together researchers and practitioners, enabling them to exchange ideas, address fundamental challenges in mutation testing, and discuss new applications of mutation.

Mutation 2016 received 12 submissions and each paper was reviewed by at least three members of the program committee. After the reviewing and discussion process, the program committee accepted 9 papers (6 full papers and 3 short papers).

Mutation 2016 features a keynote given by Westley Weimer on the duality between automated program repair and mutation testing.

Finally, we would like to thank the program committee and the external reviewers for their contributions, and the authors and participants for assuring the quality and success of this workshop.

Enjoy the workshop!

Program Chairs:

René Just, University of Massachusetts, Amherst
Jens Krinke, University College London
Christopher Henard, University of Luxembourg

Program Committee:

Paul Ammann, George Mason University, USA
Lydie du Bousquet, Laboratoire d’Informatique de Grenoble, France
Gordon Fraser, University of Sheffield, UK
Sudipto Ghosh, Colorado State University, USA
Milos Gligoric, University of Texas, USA
Rahul Gopinath, Oregon State University, USA
Yue Jia, University College London, UK
Gregory Kapfhammer, Allegheny College, USA
Nan Li, Medidata Solutions, USA
Lech Madeyski, Wroclaw University of Technology, Poland
Nicos Malevris, Athens University of Economics and Business, Greece
Mercedes Merayo, Universidad Complutense de Madrid, Spain
Ali Mesbah, University of British Columbia, Canada
Jeff Offutt, George Mason University, USA
Mike Papadakis, University of Luxembourg, Luxembourg
Macario Polo, University of Castilla-La Mancha, Spain
José Miguel Rojas, University of Sheffield, UK
Akbar Siami Namin, Texas Tech University, USA
Auri Marcelo Rizzo Vincenzi, Universidade Federal de Goiás, Brasil

External Reviewers:

Pablo Cerro
Marinos Kintis
Matthew Patrick
