## Session 1

**Invited Address 1**

Xyleme: A Dynamic Warehouse for XML Data of the Web ........................................... 3  
*The Xyleme Team*

## Session 2

**Query**

Query Scheduling in Multi Query Optimization ......................................................... 11  
*A. Gupta, S. Sudarshan, and S. Vishwanathan*

Exploiting Upper and Lower Bounds in Top-Down Query Optimization ................. 20  
*L. Shapiro, D. Maier, P. Benninghoff, K. Billings, Y. Fan, K. Hatwal,  
Q. Wang, Y. Zhang, H.-M. Wu, and B. Vance*

Web Document Searching Using Enhanced Hyperlink Semantics Based on XML .......... 34  
*I. Varlamis and M. Vazirgiannis*
Session 3

Physical Data Structures

Design and Implementation of Bitmap Indices for Scientific Data ................................................................. 47
K. Stockinger

Implementing KDB-Trees to Support High-Dimensional Data ........................................................................ 58
R. Orlandic and B. Yu

Qualitative Representations in Large Spatial Databases .............................................................................. 68
B. El-Geresy and A. Abdelmoty

Prefix Trees: New Efficient Data Structures for Matching Strings of Different Lengths .................................................. 76
N. Yazdani and P. Min

Session 4a

Schemas & Version

Generation of External Schemas in ODMG Databases .................................................................................... 89
M. Torres and J. Samos

Dynamic Systems Specifications Using Versions and Time ............................................................................ 99
M. Moro, S. Saggiorato, N. Edelweiss, and C. dos Santos

Session 4b

Short Papers I

Optimization of SchemaSQL Queries ........................................................................................................... 111
K. Davis and F. Sadri

Static Analysis of Queries as a Tool for Static Optimization ........................................................................ 117
J. Plodzien and K. Subieta

XPathLog: A Declarative, Native XML Data Manipulation Language ......................................................... 123
W. May

Metadata Management for Data Warehousing: Between Vision and Reality ............................................. 129
A. Vaduva and K. Dittrich
Session 5

Invited Address II

Evolution of Database Technology: Hyperdatabases
Hans-Jörg Schek, Swiss Federal Institute of Technology, Switzerland

Session 6

OLAP

Novel Algorithms for Computing Medians and Other Quantiles of Disk-Resident Data
L. Fu and S. Rajasekaran

Exploitation of Pre-sortedness for Sorting in Query Processing: The TempTris-Algorithm for UB-Trees
M. Zirkel, V. Markl, and R. Bayer

Interactive ROLAP on Large Datasets: A Case Study with UB-Trees
F. Ramsak, V. Markl, R. Fenk, R. Bayer, and T. Ruf

Improving the Processing of Decision Support Queries: The Case for a DSS Optimizer
H. Schwarz, R. Wagner, and B. Mitschang

Session 7a

Federated Data Sources

Version Propagation in Federated Database Systems
M. Schönhoff, M. Strässler, and K. Dittrich

Semantic Integration of XML Heterogeneous Data Sources
C. Reynaud, J.-P. Sirot, and D. Vodislav

Reducing Inconsistency in Integrating Data from Different Sources
S. Luján-Mora and M. Palomar

A Data Preparation Framework Based on a Multidatabase Language
K.-U. Sattler and E. Schallehn
Session 7b

A UML-Based Metamodeling Architecture for Database Design ................................................................. 231
M.-N. Terrasse, M. Savonnet, and G. Becker

An Integrated Graphical User Interface for High Performance Distributed Computing .................................................. 237
X. Shen, W.-K. Liao, and A. Choudhary

Virtual Integration of Temporal and Conflicting Information ................................................................. 243
P. Chountas and I. Petrounias

Modeling and Management of Spatio-temporal Objects within Temporal GIS Application Framework. ........................................ 249
D. Stojanovic, S. Djordjevic-Kajan, and Z. Stojanovic

Integrity Constraint Management for Design Object Versions in a Concurrent Engineering Design Environment ........................................ 255
J. Goonetillake, T. Carnduff, and W. Gray

Session 8

Distributed Systems

Tradeoff between Client and Server Transaction Validation in Mobile Environment .................................................. 265
A. Das and K. Kai

Cryptography and Relational Database Management Systems ................................................................. 273
J. He and M. Wang

Steiner-Optimal Data Replication in Tree Networks with Storage Costs .................................................. 285
K. Kalpakis, K. Dasgupta, and O. Wolfson

Session 9

Invited Address III

Query Languages and XML ................................................................. 297
Donald D. Chamberlin, IBM Almaden Research Center, USA
Session 10
Data Warehouse & Mining

Towards an Architecture for Real-Time Decision Support Systems: Challenges and Solutions
K. Delic, L. Douillet, and U. Dayal
303

Experimental Evaluation of a New Distributed Partitioning Technique for Data Warehouses
J. Bernardino and H. Madeira
312

Mining Free Itemsets under Constraints
J.-F. Boulicaut and B. Jeudy
322

A Framework for Understanding Existing Databases
S. Lopes, J.-M. Petit, and L. Lakhal
330

Session 11
Multimedia Farewell

A Study on Content-Based Classification and Retrieval of Audio Database
M. Liu and C. Wan
339

Similarity-Based Operators and Query Optimization for Multimedia Database Systems
S. Atnafu, L. Brunie, and H. Kosch
346

An Adaptive and Efficient Clustering-Based Approach for Content-Based Image Retrieval in Image Databases
R. Stehling, M. Nascimento, and A. Falcão
356

Author Index
367
