Unconventional Wisdom in Multicore Computing

IPDPS 2010 Panel Discussion
April 22, 2010

Panel Organizer:
Richard (Rich) Vuduc, Georgia Institute of Technology

Panelists:
Thomas Cormen, Dartmouth College
Markus Pueschel, Carnegie Mellon University
Karthikeyan (Karu) Sankaralingam, University of Wisconsin
Vivek Sarkar, Rice University
Jeffrey Vetter, Oak Ridge National Laboratory / Georgia Tech

Description:
The aim of this panel is to assess the prevailing assumptions in today's multicore software R&D and computing education, and ask in particular whether the parallel computing community's current trajectory will produce the "right" algorithmic and software infrastructure for tomorrow's applications.
