Message from the ISPA 2011 General Chairs

On behalf of the organizing committees, it is our pleasure to welcome you to the 9th IEEE International Symposium on Parallel and Distributed Processing with Applications (ISPA 2011), which will be held in Busan, Korea, May 26–28, 2011.

ISPA 2011 is the next event in a series of highly successful symposia on parallel and distributed computing and networking, previously held as ISPA 2010 (Taipei, Taiwan), ISPA 2009 (Chengdu, China), ISPA 2008 (Sydney, Australia), ISPA 2007 (Niagara Falls, Canada), ISPA 2006 (Sorrento, Italy), ISPA 2005 (Nanjing, China), ISPA 2004 (Hong Kong), and ISPA 2003 (Aizu, Japan).

This year the value, breadth, and depth of the ISPA symposium continues to strengthen and grow in importance for both the academic and industrial communities. This strength is evidenced this year by having the highest number of submissions made to the symposium, which has resulted in our selective program. In addition, the publishing of special issues from two famous journals (Cluster Computing and EURASIP Journal on Wireless Communications and Networking) make this symposium stronger.

We sincerely thank all of our chairs and committee members, as listed in the following pages. Without their hard work, the success of ISPA 2011 would not have been possible. We hope you find ISPA 2011 enjoyable and please let us know if you have any suggestions for improvement.

James J. (Jong Hyuk) Park, Seoul National University of Science and Technology, Korea  
C.S. Raghavendra, University of Southern California, USA  
Zhiwei Xu, Chinese Academy of Sciences, China
