2010 Second International Conferences on Advances in Multimedia

MMMEDIA 2010

Table of Contents

Preface ........................................................................................................................................................viii
Organizing Committee .................................................................................................................................x
Reviewers ...................................................................................................................................................xiii

MMMEDIA 1: Fundamentals in Multimedia

An Architecture for Distributing Scalable Content over Peer-to-Peer Networks .............................................1
Nicola Capovilla, Michael Eberhard, Silvano Mignanti, Riccardo Petrocco, and Janne Vehkaperä
Fast Mode Decision for H.264/AVC Encoding of Tunnel Surveillance Video .............................................7
Tong Gan and Patrice Rondao Alface
Image Segmentation with Clustering K-Means and Watershed Transform ..................................................13
Adelina-Iulia Sarpe
Towards an Improved SVC-to-AVC Rewriter ...............................................................................................18
Michael Sablatschan, Michael Ransburg, and Hermann Hellwagner

MMMEDIA 2: Perception and Cognition for Multimedia Users

Playing Interactivity in Public Space ...........................................................................................................22
Jiun-Jhy Her
Multimodal User Guide for Experience Sharing Based on Activity Modeling ..........................................29
Hyoungnyoun Kim and Ji-Hyung Park
Measuring Quality of Experience on a Commercial Mobile TV Platform .................................................33
Vlado Menkovski, Georgios Exarchakos, Antonio Liotta, and Antonio Cuadra Sánchez
MMEDIA 3: Multimedia Applications I

Featured Media: Nonlinear, Clickable Multimedia Content for an Interactive Video Experience
Christian Räck, Robert Seeliger, and Stefan Arbanowski

Web-Based Visualization of Media Data for Driver Assistance
Bin Wang, Sathiamoorthy Manoharan, and Reinhard Klette

Remote Fruition of Architectures: R&D and Training Experiences
Antonella Lerario, Nicola Maiellaro, and Marina Zonno

MMEDIA 4: Multimedia Applications II

Applying Prediction Techniques to Reduce Uplink Transmission and Energy Requirements in Mobile Free-Viewpoint Video Applications
Clifford De Raffaele and Carl James Debono

Approach to Identity Card-Based Voice-over-IP Authentication
Andreas Plies, Michael Massoth, and Ronald Marx

Literature Survey on Image Watermarking Tools, Watermark Attacks and Benchmarking Tools
Thi Hoang Ngan Le, Kim Hung Nguyen, and Hoai Bac Le

An Adaptive Live Media Streaming Architecture
Lambros Lambrinos and Ellie Demetriou

MMEDIA 5: Multimedia Content-Based Retrieval and Analysis I

Recognizing Landmarks Using Automated Classification Techniques:
Evaluation of Various Visual Features
Giuseppe Amato, Fabrizio Falchi, and Paolo Bolettieri

A Unified Approach for Image Segmentation and Annotation to Storage and Retrieval Based on Content
Eugen Ganea

Inductive User Preference Manipulation for Multimedia Retrieval
David Zellhöfer

An Embedded Filesystem for Mobile and Ubiquitous Multimedia
Nicola Corriero and Eustrat Zhupa

MMEDIA 6: Self-Organizing Multimedia Architectures

Feedback-Based Performance Tuning for Self-Organizing Multimedia Retrieval Systems
Jan Sedmidubsky, Vlastislav Dohnal, and Pavel Zezula

QoSILAN - A Heterogeneous Approach to Quality of Service in Local Area Networks
Christopher Köhnken, Christian Überall, Veselin Rakocević, Muttukrishnan Rajarajan, and Rudolf Jäger
