Preface
MSN 2014

The IEEE 10th International Conference on Mobile Ad-hoc and Sensor Networks (MSN2014), will be held during December 19-21, 2014, in Maui, Hawaii, USA. IEEE MSN 2014 provides a forum for researchers working in the area of Mobile Ad-hoc and Sensor Networks.

The technical program of the conference includes 48 contributed papers selected by the program committee from a number of 94 full submissions received in response to the call for papers. All the papers were peer reviewed by at least three program committee members or external reviewers.

The topics cover most aspects of theoretical and practical computer science related to computing, including Wireless Sensor Network, Device-to-Device Communication, Ad Hoc Network and Delay Tolerant Network, Localization and Wireless Network, Social Network and miscellaneous. Some of the papers will be selected for publication in special issues of Algorithmic, Theoretical Computer Science (TCS), and Journal of Combinatorial Optimization (JOCO). It is expected that the journal version papers will appear in a more complete form.

We thank all the people who made this meeting possible: the authors for submitting papers, the program committee members and external reviewers for volunteering their time to review conference papers. We would like to extend special thanks to the publication, publicity, and local organization chairs for their hard work in making IEE MSN2014 a successful event.

General Co-chairs
