Message from the General Chairs

On behalf of the organizing committees, it is our pleasure to welcome you to the Third International Conference on Mobile, Ubiquitous, and Intelligent Computing (MUSIC 2012) will be held in Vancouver, Canada, 26-28 June 2012.

Based on the great success of the previous series of MUSIC conferences (First MCC 2010 at Cebu, Philippines; Second MCC 2011 at Loutraki, Greece), the Third International Conference on Mobile, Ubiquitous, and Intelligent Computing (MUSIC 2012) conference will be the most comprehensive conference focused on the various aspects of intelligent technologies in mobile and ubiquitous computing environment.

This year MUSIC continues to strengthen and grow from strength to strength in growing the value, breadth and depth of the conference to both the academic and industry communities. This strength is clear from our highest number of submissions to the conference resulting in our selective program. Particularly, the special issues from nine famous journals (Integrated Computer-Aided Engineering, Journal of Supercomputing, Journal of Computer Mathematics, Wireless Personal Communications, Personal and Ubiquitous Computing, Multimedia Tools and Applications, Peer-to-Peer Networking and Applications, Cluster Computing, and Telecommunication Systems) make this conference stronger.

We would like to sincerely thank the following speakers who kindly accepted our invitations, and, in this way, helped to meet the objectives of the conference:

- **Hojjat Adeli**, The Ohio State University, USA
- **Krishna Kant**, George Mason University, USA
- **Ivan Stojmenovic**, University of Ottawa, Canada

We also sincerely thank all our chairs and committees, and these are listed in the following pages. Without their hard work, the success of MUSIC 2012 would not have been possible. We hope you find MUSIC 2012 enjoyable and please let us know any suggestions for improvement.

*Sang Soo Yeo, Mokwon University, Korea*
*Victor Leung, University of British Columbia, Canada*
