Message from the Program Co-chairs

PAAP 2011

PAAP 2011 aims at addressing advances in research on parallel computing, covering topics from theoretic studies to technology issues and applications. The Program Committee received 106 submissions around world from countries like China, Singapore, America, Canada, Japan and Australia etc. The submitted papers went through a rigorous reviewing process. Every submission was reviewed by two or three reviewers, and most reviews were accomplished by the Program Committee members. Out of the 106 original submissions, 33 papers were selected as regular papers, with an acceptance rate of 31.13%; 33 papers were selected as poster papers, with an acceptance rate of 31.13%.

We thank the authors for submitting their papers to the symposium. We are grateful to the members of the Program Committee and external reviewers for their work within very tight demanding time constraints. We thank the Organizing Committee members for their contribution in making the symposium a success.

We greatly appreciate the support from various institutions. The symposium was organized by Tianjin Polytechnic University, Association of Information Computing and Communications, Dalian University of Technology, Guangxi University, University of Science and Technology of China and Harbin Engineering University. PAAP 2011 was supported in part by the National Science Foundation of China under Grant Nos. 60970016 and 61173032.
