Message from the ENC 2010 Workshop Co-Chairs

Welcome to the First International Workshop on Engineering and Numerical Computation (ENC 2010), which is being held in conjunction with the 11th International Conference on Parallel and Distributed Computing, Applications and Technologies (PDCAT 2010) on December 8–11, 2010, in Wuhan, Hubei, China.

After six months of preparation and hard work on the part of the Organizing Committee, ENC 2010 is finally under way. On behalf of the Organizing Committee, we welcome all of you to Wuhan, China, which is a very beautiful city.

The goal of ENC 2010 is to provide an opportunity for researchers and practitioners to exchange new ideas, technologies, and experience in the fields of engineering and numerical computation. ENC received 26 submissions, of which 12 papers were selected for workshop presentations and publication in the proceedings. Each submitted paper was peer reviewed by at least three Program Committee members or external reviewers.

On behalf of the Organizing Committee, we would like to take this opportunity to thank all of the PC members and reviewers for their efforts in ensuring the success of this workshop. Furthermore, we would like to express our sincere appreciation to the chairs of PDCAT 2010 for their support and help in organizing this event.

Finally, we wish a fruitful workshop with successful technical presentations, productive discussions, and the friendly exchange of ideas and networking in Wuhan, China.

Yunfa Li, Guojun Wang, and Deqing Zou
ENC 2010 Workshop Co-Chairs
