Preface
Foreword .......................................................... iii

Research Papers
Regulation-Based Dimensional Modeling for Regulatory Intelligence
  Omar Badreddin, Gunter Mussbacher, Daniel Amyot, Saeed Ahmadi Behnam, Rouzbahan Rashidi-Tabrizi, Edna Braun, Mohammad Alhaj, and Gregory Richards — University of Ottawa, Canada; Carleton University, Canada .................. 1

Mapping Legal Requirements to IT Controls
  Travis D. Breaux, David G. Gordon, Nick Papanikolaou, and Siani Pearson — Carnegie Mellon University, USA; HP Labs, UK ................................................................. 11

Eros: An Approach for Ensuring Regulatory Compliance of Process Outcomes
  Quanjun Yin, Nazim H. Madhavji, and Mahesh Pattani — University of Western Ontario, Canada; BestCare, UK ......................... 21

Toward Benchmarks to Assess Advancement in Legal Requirements Modeling
  Ivan Jureta, Travis D. Breaux, Alberto Siena, and David G. Gordon — University of Namur, Belgium; Carnegie Mellon University, USA; University of Trento, Italy .................................................. 25

Transforming Regulations into Performance Models in the Context of Reasoning for Outcome-Based Compliance
  Rouzbahan Rashidi-Tabrizi, Gunter Mussbacher, and Daniel Amyot — University of Ottawa, Canada .................. 34

Towards a Process for Legally Compliant Software
  Wael Hassan and Luigi Logrippo — Privacy in Design, Canada; University of Quebec at Outaouais, Canada; University of Ottawa, Canada .................. 44

Special Session on Convergent Challenges in Legal Requirements Analysis and Modeling
Legal Requirements Analysis and Modeling with the Measured Compliance Profile for the Goal-oriented Requirement Language
  Rouzbahan Rashidi-Tabrizi, Gunter Mussbacher, and Daniel Amyot — University of Ottawa, Canada .................. 53

Preserving Traceability and Encoding Meaning in Legal Requirements Extraction
  Travis D. Breaux and David G. Gordon — Carnegie Mellon University, USA ................................................................. 57

Applying CoReL to an Excerpt of HIPAA: A Critical Discussion
  Marwane El Kharbili — University of Luxembourg, Luxembourg ............... 61

Applying GaiusT for Extracting Requirements from Legal Documents
  Nicola Zeni, Luisa Mich, John Mylopoulos, and James R. Cordy — University of Trento, Italy; Queen’s University, Canada 65

Modeling Laws with Nomos 2
  Silvia Ingolfo, Alberto Siena, Angelo Susi, Anna Perini, and John Mylopoulos — University of Trento, Italy; Fondazione Bruno Kessler, Italy ................................................................. 69
