Message from the CBuH 2010
Workshop Organizers

It is our pleasure to introduce the First Workshop on Computing Technologies and Business Strategies for u-Healthcare (CBuH 2010), held 23 July 2010 in Seoul, Korea in conjunction with the 10th Annual International Symposium on Applications and the Internet (SAINT 2010).

This workshop touches both technological aspects such as infrastructure design, data analysis and fusion, decision support algorithms, as well as financing aspects for u-healthcare. It aims to gather together care-givers, IT experts, industry, and national authorities contributing towards the development and application of u-healthcare system. The workshop consists of two invited papers and three submitted papers. Each submitted paper received 2.7 reviews on average. The acceptance rate was 43%.

The efforts of many people are thanked for their assistance in making the workshop a success: especially, Professors Ohsaki and Nakamura and the organizational staff of SAINT 2010 for their assistance with and support of our workshop; the C BuH 2010 Assistant Organizers, the C BuH 2010 Program Committee and Dr. S. K. Tanbeer.

Lastly, it is our sincere belief that all who attend here in Seoul, and all who may yet read these proceedings, may find the information and research enclosed herein useful in furtherance of their goals.

Thank you to all who participated.
