# Second International Workshop on Software Architecture and Metrics (SAM 2015)

## Table of Contents

- Message from the Chairs .......................................................... vii
- Committees .............................................................................. ix
- Sponsors and Supporters .......................................................... x

### Quantifying Architecture Quality

- Towards Assessing Software Architecture Quality by Exploiting Code Smell Relations ........................................ 1  
  Francesca Arcelli Fontana, Vincenzo Ferme, Marco Zanoni — University of Milano Bicocca, Italy; University of Lugano, Switzerland

  Olaf Zimmermann — HSR FHO, Switzerland

- A Metric-Based Approach to Managing Architecture-Related Impediments in Product Development Flow: An Industry Case Study from Cisco ......................................................... 15  
  Ken Power, Kieran Conboy — Cisco Systems, Ireland; National University of Ireland Galway, Ireland

- An Analysis of Techniques and Methods for Technical Debt Management: A Reflection from the Architecture Perspective ...................................................................................... 22  
  Carlos Fernández-Sánchez, Juan Garbajosa, Carlos Vidal, Agustín Yagüe — Technical University of Madrid, Spain

- Architecture-Based Quality Attribute Synergies and Conflicts ............................................................................. 29  
  Barry Boehm — University of Southern California, USA

### Architecture, Complexity, and Measurement

- Comparing the Applicability of Complexity Measurements for Simulink Models during Integration Testing—An Industrial Case Study ........................................................................... 35  
  Jan Schroeder, Christian Berger, Thomas Herpel, Miroslaw Staron — University of Gothenburg, Sweden; Automotive Safety Technologies GmbH, Germany

- Exploring the Stability of Software with Time-Series Cross-Sectional Data ....................................................... 41  
  Jukka Ruohonen, Sami Hyrynsalmi, Ville Leppänen — University of Turku, Finland
